Mr. Marvin E. DeVos  
Kay Dee Feed Company  
1919 Grand Avenue  
P.O. Box 2334  
Sioux City, IA 51107-0334

Dear Mr. DeVos:

Subject: Submission of Revised Labeling and Additional  
Product Chemistry Information  
KAY DEE FEE CHOICE RABOW MINERAL  
EPA Registration No. 6552-16  
Your Resubmission Dated March 30, 1988

The labeling referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended, is acceptable provided that you make the labeling changes listed below before you release the product for shipment bearing the amended labeling.

- 1. In the Environmental Hazards section, revise the statement concerning contamination of water to read:

Do not contaminate water when disposing of equipment washwaters.

- 2. You must provide the chemical identity of all components, material safety data sheet, and CAS Number of "Trace minerals and the artificial flavoring." Your supplier may contact us directly by referencing your EPA Registration Number in their response.

Submit five (5) copies of final printed labeling before you release the product for shipment.

Sincerely yours,

George T. LaRocca  
Product Manager (15)  
Insecticide-Rodenticide Branch  
Registration Division (TS-767C)

# FREE CHOICE RABON® MINERAL

## With Rabon® Oral Larvicide

6552-16

NET WEIGHT 50 POUNDS

LOT NO. \_\_\_\_\_

To prevent the development of horn flies, face flies, house flies and stable flies in the manure of treated cattle.

ACTIVE INGREDIENT	BY WEIGHT
* 2-chloro-1-(2,4,5-trichlorophenyl) vinyl dimethyl phosphite .....	0.75%
INERT INGREDIENTS** .....	99.25%
Total .....	100.00%

\* Each pound contains 3.42 g RABON®  
\*\* Refers only to ingredients which are not larvicidal.

**GUARANTEED ANALYSIS**

Calcium (Ca), max. ....	21.00%
Calcium (Ca), min. ....	18.00%
Phosphorus (P), min. ....	6.00%
Salt (NaCl), max. ....	17.00%
Salt (NaCl), min. ....	15.00%
Iodine (I), min. ....	.003%
Magnesium (Mg), min. ....	1.75%
Manganese (Mn), min. ....	.05%
Cobalt (Co), min. ....	.0005%
Copper (Cu), min. ....	.005%
Iron (Fe), min. ....	1.25%
Fluorine (F), max. ....	.06%
Vitamin A, min. ....	100,000 USP Units/Lb.
Vitamin D3, min. ....	50,000 USP Units/Lb.

**FEED INGREDIENTS**  
Defluorinated Phosphate, Monocalcium Phosphate, Salt, Magnesium Carbonate, Calcium Carbonate, Ethylenediamine Dihydriodide, Cobalt Carbonate, Zinc Oxide, Copper Oxide, Iron Oxide, Manganese Oxide, D-Activated Animal Sterol (source of Vitamin D3), Vitamin A Acetate, Anise Oil and Cane Molasses.

**DIRECTIONS FOR USE**  
It is a violation of Federal law to use this product in a manner inconsistent with its labeling.  
Allow free choice to cattle. Cattle should consume an average of 10 oz. of the mineral per 100 pounds of body weight per month. This will supply the recommended average daily intake of 70 mg. Rabon® Oral Larvicide per 100 pounds of body weight. Animals should not be starved for minerals before initiation of the Kay Dee FREE CHOICE RABON® MINERAL with Rabon® program but omit all salt from other feed after the program is started. Do not feed other free choice sources of salt or mineral containing salt in any form. Allow 1 mineral feeder for each 10-15 head, and place near watering and loafing areas. Put out no more than 1 month's supply at a time, and protect from rain.  
If consumption of Kay Dee FREE CHOICE RABON® MINERAL with Rabon® is above 10 oz. per 100 lbs. of body weight per month, reduce the number of feeding locations or relocate. If consumption is below 10 oz. per 100 pounds of body weight per month, increase the number of feeding locations. Start feeding Kay Dee FREE CHOICE RABON® MINERAL with Rabon® early in the spring before flies begin to appear, and continue feeding throughout the summer and into the fall.

Kay Dee FREE CHOICE RABON® MINERAL with Rabon® may be fed up to slaughter and to lactating dairy cows.  
Kay Dee FREE CHOICE RABON® MINERAL with Rabon® prevents

the development of horn flies, face flies, house flies and stable flies in the manure of treated cattle, but is not effective against existing adult flies. When starting a feeding program during the fly season, it may be necessary to use other control measures to reduce the population of existing adult flies.

Supplemental fly control measures may be needed in and around cattle lots and buildings to control adult house flies and stable flies which can breed not only in cattle manure but in other, decaying vegetable matter or silage on the premises.

In order to achieve optimum fly control Kay Dee FREE CHOICE RABON® MINERAL with Rabon® should be used in conjunction with other good management and sanitation practices.

® Rabon is the registered trademark of Shell Oil Co., U.S. Pat. 3,102,842

### KEEP OUT OF REACH OF CHILDREN CAUTION

See below for additional precautionary, storage and disposal statements.

#### PRECAUTIONARY STATEMENTS HAZARDS TO HUMANS

Harmful if swallowed. Avoid contact with skin and eyes. Avoid breathing dust. Wash thoroughly with soap and water after handling and before eating or smoking. If in eyes, wash with plenty of water. If irritation persists, see a physician.

#### ENVIRONMENTAL HAZARDS

This product is toxic to fish. Do not apply directly to water. Do not contaminate water by cleaning of equipment or disposal of wastes.

#### STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal.

#### PESTICIDE DISPOSAL

Pesticides that cannot be used according to label instructions must be disposed of according to applicable Federal, State or Local procedures.

#### CONTAINER DISPOSAL

Completely empty bag by shaking & tapping sides & bottom to loosen clinging particles. Empty residue into application equipment. Then dispose of bags in a sanitary landfill or by incineration if allowed by State and Local authorities.
