VIBRO FOG INSECTICIDE

USE WITH VIBRATING TYPE FOGGERS

FOR THE REDUCTION OF ANNOYANCE FROM FLIES,
MOSQUITOES, GNATS AND SIMILAR SMALL FLYING
INSECTS.

READY TO USE —

CAUTION

KEEP OUT OF REACH OF CHILDREN

SEE SIDE PANEL FOR ADDITIONAL CAUTIONS.

ACTIVE INGREDIENTS 100%

Pyrethrins	0.14% wt.
Piperonyl Butoxide Technical*	0.66% wt.
Petroleum Distillate	99.20% wt.

* Consists of 0.528% (butylcarbityl) (6-Propylpiperonyl)
Ether and 0.132% other related compounds.

COMBUSTIBLE MIXTURE OF F.D.N.Y.C. OF A.

DO NOT FOG NEAR FIRE OR OPEN FLAME

DIRECTIONS:

This product is specially formulated to kill mos-
quitoes, flies and many other small, flying insects.

Small particles of insecticide produced by fogging
remain suspended in the air longer than particles
produced by standard hand sprayer. As a result,
the fogging method is more effective for killing
certain flying insects outdoors.

Use this product exactly as it comes from the can,
the lasting effects of fog depend on weather condi-
tions, and if a wet or dry fog is produced. Wet fog
contains larger particles of insecticide which have
not been completely vaporized. Therefore, dry fog
is desirable.

Do not attempt to fog your patio or yard when
the wind velocity is greater than 5 miles per hour
as the fog will be carried away before it has an
opportunity to be effective. The ideal time for
fogging is around dusk when the wind usually dies
down and the temperature at ground level is some-
what lower than that of the air a few feet off the
ground. Under such conditions, the fog in the
treated area will linger for a longer period of time.

It is not advisable or necessary to hold the electric
fogger close to any plants or shrubbery to obtain
satisfactory results. It is recommended that the
fogger be held five feet or more from the object or
area being treated.

Recommended for use in yards, patios, pic-
nic grounds, around swimming pools, drive-
ins, barns and stables.

CAUTION

Keep out of reach of children. Oil base
liquids are harmful if swallowed. Babies and
small children should not be exposed to fog.

Avoid contaminating milk, milk equipment
and utensils. If insecticide is swallowed or
illness results from exposure, call physician
at once.

Combustible moisture of F.D.N.Y.C. of A.
Do not fog near fire or open flame.

FISH AND WILDLIFE CAUTION

Do not apply when weather conditions favor drift
from areas treated. Do not contaminate water by
cleaning of equipment or disposal of wastes. Apply
this product only as directed on the label. This
product is toxic to fish.

CONTAINER DISPOSAL:

Do not reuse empty drum. Destroy by perforating
or crushing and burying in a safe place away from
water supplies.

Read other panels for directions before using.

WARRANTY:

Seller makes no warranty expressed or implied
concerning the use of this product other than
indicated on label. Buyer assumes all risks of use,
storage or handling of the material not in strict
accordance with directions given herewith.
