

# SWIMMING POOL ALGAECIDE

## DIRECTIONS FOR USE:

**INITIAL DOSE:** 1 gallon swimming pool algaecide to 50,000 gallons of water.

**MAINTENANCE DOSE:** 1 quart swimming pool algaecide to 50,000 gallons of water.

Initial dose is used when filling pool at beginning of swimming season. If pool has visible algae growth, treat with initial dose. Vacuum pool after 24 hours to remove algae debris. If visible algae are still present or re-appear, repeat this treatment procedure as necessary. When pool is free of visible algae, use the recommended maintenance dose.

Maintenance dose should be added at 3-5 day intervals. If high temperatures prevail or pool has unusually high use, add maintenance dose more frequently.

If make-up water is added at the rate of more than 10% per week of pool capacity, add 1 quart of SWIMMING POOL ALGAECIDE for each 10,000 gallons of fresh make-up water added per week.

When swimming season is over, add 1 gallon of SWIMMING POOL ALGAECIDE to 50,000 gallons of water in treating water left in pool. This does help provide a measure of control of algae growth during the winter months. This treatment will also help the servicing of the pool before it is returned to use the following season.

**WARRANTY STATEMENT:** Buyer assumes all risks of use, storage or handling of this material not in strict accordance with directions given herewith.

**SEE OTHER SIDE PANEL FOR FURTHER DIRECTIONS AND CAUTIONS.**

# SWIMMING POOL ALGAECIDE

When swimming pool algaecide is used as directed, it will kill and prevent development of *Chlorella pyrenoidosa* (green), *Phormidium inundatum* (black algae), *Phormidium retzii* (square D algae), *Lyngba versicolor* (blue-green) and other swimming pool algae.

Swimming pool algaecide is compatible with most commonly used swimming pool chemicals, but should not be mixed with soap or other cleaners, or premixed with other water treating chemicals.

Swimming pool algaecide works best when added by itself directly to pool water. Swimming pool algaecide at use dilution is non corrosive to inanimate surfaces.

**DANGER - CORROSIVE. KEEP OUT OF REACH OF CHILDREN. CAUSES SEVERE EYE AND SKIN DAMAGE. DO NOT GET IN EYES, ON SKIN OR ON CLOTHING. WEAR GOGGLES OR FACE SHIELD, AND RUBBER GLOVES WHEN HANDLING. HARMFUL OR FATAL IF SWALLOWED. AVOID CONTAMINATION OF FOOD.**

### FIRST AID

In case of contact, immediately flush eyes or skin with plenty of water for at least 15 minutes. For eyes, call a physician. Remove and wash all contaminated clothing before reuse. If swallowed, drink milk, egg whites, gelatine solution, -- if these are not available, drink large quantities of water. Call a Physician.

**NOTE TO PHYSICIAN** - Probable mucosal damage may contraindicate the use of gastric lavage. Measures against circulatory shock, respiratory depression and convulsion may be needed.

**FISH AND WILDLIFE CAUTIONS** - This product is toxic to fish. Treated effluent should not be discharged where it will drain into lakes, streams, ponds, or public water. Apply this product only as specified on this label.

**RINSE EMPTY CONTAINER THOROUGHLY WITH WATER AND DISCARD.**
