DIRECTIONS

To control most weeds and grasses for extended periods on non-cropland areas such as industrial plant sites, parking lots, loading ramps and around storage buildings and similar non-crop areas, apply 1.5 to 4 gallons per 1000 square feet of Weed Killer #6 Liquid with Drift Reducer after the most predominant weeds have emerged. No agitation is required. Weed Killer #6 Liquid with Drift Reducer can be applied with standard spray equipment. For treating small areas, a tank type hand sprayer or sprinkling can may be used. Apply when weeds are young and actively growing.

NOTE: Users should consult State Agricultural Experiment Stations or Extension Service Weed Specialists for recommendations as to use of Weed Killer #6 with Drift Reducer in their particular area or write to us.

IMPORTANT: Do not apply directly to, or otherwise permit Weed Killer #6 with Drift Reducer to contact susceptible plants as this product may injure cotton, beans, peas, grapes, flowers, fruit trees, ornamentals, or other desirable plants. Avoid spray drift to such susceptible plants (coarse sprays are less likely to drift). Vapors from Weed Killer #6 may injure susceptible plants in the immediate vicinity. Do not apply to areas underlaid by roots of desirable trees and shrubs. Thoroughly clean spray equipment with a suitable chemical cleaner before using for other purposes (or do not use same equipment for other purposes). Do not store near fertilizers, seeds, insecticides or fungicides. Do not reuse this container.

Weed Killer #6 with Drift Reducer is toxic to fish and wildlife. Birds and other wildlife in treated areas may be killed. Keep out of lakes, streams, or ponds. Do not apply where runoff is likely to occur. Do not apply when weather conditions favor drift from areas treated. Do not contaminate water by cleaning of equipment or disposal of wastes. Do not contaminate water used for irrigation or domestic purposes. Apply Weed Killer #6 only as specified on this label.

WARNING: KEEP OUT OF THE REACH OF CHILDREN. HARMFUL IF SWALLOWED. CAUSES SKIN IRRITATION.

Avoid contact with skin, eyes, and clothing. Wash thoroughly after handling. In case of contact, flush with large amounts of water. For eyes, get medical attention. Remove and wash contaminated clothing before reuse.
