

INDUSTRIAL Sanitizing Softener

Fabric Softener Concentrate, Residual
Bacteriostat and Residual Self-Sanitizer
Under Conditions of High Relative
Humidity or Wet Contamination.

Industrial Sanitizing Softener will provide fabric softening activity, residual bacteriostat activity and residual self-sanitizing activity. It is of proven performance (S. aureus) in humid conditions and wet conditions. It is also proven to be effective in high relative humidity or wet contamination.

Industrial Sanitizing Softener prevents the growth of ammonia producing organisms (B. ammeliae) which are of value in the paper and textile industries.

Industrial Sanitizing Softener is effective in the elimination of staining (Stain-Chaser) out of nylons and other synthetic fibers. Improves dyeing results.

ACTIVE INGREDIENTS:

n-Alkyl (60% C ₁₂ -30% C ₁₄ -5% C ₁₆ -5% C ₁₈) dimethyl benzyl ammonium chlorides	33.3%
n-Alkyl (68% C ₁₂ -32% C ₁₄) dimethyl ethylbenzyl ammonium chlorides	33.3%

INERT INGREDIENTS

33.3%

CONTENTS

1.000 LBS. (454 KG.)
1.000 GALLONS (37.9 LITERS)
1.000 GALLONS (37.9 LITERS)
1.000 GALLONS (37.9 LITERS)
1.000 GALLONS (37.9 LITERS)

WARNING

Keep out of reach of children. See label for brand for first aid and precautionary statements. Use only as directed. Do not use in food preparation areas. Do not use in areas where food is prepared.

FIRST AID

In case of contact with eyes, flush with water for 15 minutes. If swallowed, take one egg white and drink 2-3 glasses of water. If inhaled, take one glass of water. If on skin, wash with soap and water. If on fabric, wash with water. Do not use in food preparation areas. Do not use in areas where food is prepared.

INDUSTRIAL Sanitizing Softener

Fabric Softener Concentrate, Residual Bacteriostat and Residual Self-Sanitizer Under Conditions of High Relative Humidity or Wet Contamination

Fabric treated as directed will develop residual bacteriostatic activity and residual self-sanitizing activity against Gram positive (*S. aureus*) and Gram negative (*Klebsiella pneumoniae*) organisms under conditions of high relative humidity or wet contamination.

Industrial Sanitizing Softener prevents the growth of ammonia producing organisms (*B. ammonia-genus*) which act on urine in the diapers to produce ammonia.

Industrial Sanitizing Softener softens clothes, thus eliminating chafing, "Static Clings" out of nylons and other synthetics. Improves ironing time.

USE DIRECTIONS

Use 5 ounces of Industrial Sanitizing Softener per 100 pounds of dry laundry in final rinse cycle.

For use in commercial laundry operations.

WARNING

Keep Out of Reach of Children. Causes eye and skin irritation. Do not get in eyes, on skin or on clothing. Harmful if swallowed. Avoid contamination of food.

FIRST AID:

In case of contact, immediately flush eyes or skin with plenty of water for at least 15 minutes. For eyes, call a physician. Remove and wash all contaminated clothing before reuse. If swallowed, drink milk, egg whites, gelatin solution, or if these are not available, drink large quantities of water. Call a physician. Rinse empty container thoroughly with water before discarding or re turning drum to drum reconditioner.

ACTIVE INGREDIENTS:	
n-Alkyl (80% C ₁₁ , 30% C ₁₂ , 5% C ₁₃ , 5% C ₁₄) dimethyl benzyl ammonium chlorides	3.25%
n-Alkyl (68% C ₁₂ , 32% C ₁₁) dimethyl ethylbenzyl ammonium chlorides	3.25%
INERT INGREDIENTS:	93.5%
	100.0%
