Attention: Ronald Harding

Gentlemen:

Subject: Swimming Pool Algaecide  
EPA Registration No. 6626-30

The amendment referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide, and Rodenticide Act, is acceptable provided that you.

1. Make the labeling changes listed below before you release the product for shipment bearing the amended labeling:
  - a. Revise the Environmental Hazards statement to read:

Environmental Hazards

This pesticide is toxic to fish. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans, or public waters unless this product is specifically identified and addressed in an NPDES permit. Do not discharge effluent containing this product to sewer systems without previously notifying the sewage treatment plant authority. For guidance, contact your State Water Board or Regional Office of the EPA.

- b. Revise the statement "First Aid" to read "Statement of Practical Treatment."
- c. Revise the referral statement to read:

See right rear side panel for additional precautionary statements.

CONCURRENCES

SYMBOL	SURNAME	DATE						

- d. On the right panel, above the word Danger, include the precautionary statement to read:

Precautionary Statements  
Hazards To Human and Domestic Animals

- e. Delete the word "milk."  
f. Delete the last sentence from the Note To Physician section.  
g. Delete the statement:

Rinse empty container thoroughly with water  
and discard.

- h. The signal word "DANGER" must be placed directly below the statement "Keep Out of Reach of Children" (center panel only).  
i. Under the "Directions For Use" heading, include the following misuse statement:

It is a violation of Federal Law to use  
this product in a manner inconsistent  
with its labeling.

2. Submit five (5) copies of your final printed labeling before you release the product for shipment.

Your release for shipment of the product bearing the amended labeling constitutes acceptance of these conditions.

A stamped copy of the labeling is enclosed for your records.

If you have any questions concerning this letter, please contact Martha DeLaney at (703) 557-6982.

Sincerely yours,

John H. Lee   
Product Manager (31)  
Antimicrobial Program Branch  
Registration Division (TS-767C)

Enclosure

ACCEPTED  
with COMMENTS  
in EPA Letter Dated:

NOV 29 1988

Under the Federal Insecticide,  
Fungicide, and Rodenticide Act as  
amended, for the pesticide  
registered under EPA Reg. No.

6626-30

### DIRECTIONS FOR USE

**Initial Dose:** 1 gallon ARLCO to 50,000 gallons of water.

**Maintenance Dose:** 1 quart ARLCO to 50,000 gallons of water.

Initial dose is used when filling pool at beginning of swimming season. If pool has visible algae growth, treat with initial dose. Vacuum pool after 24 hours to remove algae debris. If visible algae are still present or reappear, repeat this treatment procedure as necessary. When pool is free of visible algae, use the recommended maintenance dose.

Maintenance dose should be added at 3-5 day intervals. If high temperatures prevail or pool has unusually heavy use, add maintenance dose more frequently.

If make up water is added at the rate of more than 10% per week of pool capacity, add 1 quart of ARLCO for each 10,000 gallons of fresh make up water added per week.

## SWIMMING POOL ALGAECIDE

EPA Est. No. 6626 NY-1

Concentrated Swimming Pool Algaecide

Keeps Pool Water Clear and Free of  
Visible Algae

Controls Algae Slimes

### ACTIVE INGREDIENTS:

n-Alkyl (60% C<sub>14</sub>, 30% C<sub>16</sub>, 5% C<sub>12</sub>, 5% C<sub>18</sub>)  
dimethyl benzyl ammonium chlorides ..... 5%  
n-Alkyl (68% C<sub>12</sub>, 32% C<sub>14</sub>)  
dimethyl ethylbenzyl ammonium chlorides ..... 5%

INERT INGREDIENTS: 90%

100%

**DANGER**  
**KEEP OUT OF REACH OF**  
**CHILDREN**

See other precautionary statements on  
right rear side panel.

**MANUFACTURED BY**  
**ATLANTIC RESEARCH LABORATORIES**  
**CORPORATION**

When swimming season is over, add ARLCO to 50,000 gallons of water left in pool. This dose is a measure of control of algae during winter months. This treatment should be done before the servicing of the pool before use the following season.

When ARLCO is used as directed, it will prevent development of Chlorococcoides (green), Phormidium inundatum, Phormidium retzii (Square), Phormidium versicolor (blue green) and other pool algae.

ARLCO is compatible with other swimming pool chemicals. It can be mixed with soap or other chemicals. It can be premixed with other water treatments. ARLCO works best when applied directly to pool water. ARLCO is non-corrosive to inanimate surfaces.

### STORAGE AND DISPOSAL

Do not contaminate water, food, or feed. **PESTICIDE STORAGE AND SPILL PROTECTION:** Avoid exposure to extreme temperatures. Use absorbent material such as sand, sawdust, or other material to absorb spilled material. Dispose of with chemical waste. Store in a locked area away from children and animals. **PESTICIDE DISPOSAL:** Wastes resulting from the use of this pesticide may be disposed of on site or at an approved site. **CONTAINER DISPOSAL:** This pesticide container should be recycled, if possible, or if allowed by State and local authorities, it may be incinerated. Do not reuse empty containers.
