24-HOUR FACE-FLY PROTECTION!

DIRECTIONS FOR USE

FACE-FLY: To protect against face-flies, spray LeGear FACE-FLY AND LIVESTOCK SPRAY on the face of cattle allowing 4 seconds spraying time per animal. Be sure to spray around eyes and nostrils. Treat cattle daily at morning milking time for 24-hour protection from face-flies. Do not spray directly into animal's eyes.

HORSEFLIES AND DEERFLIES: To protect livestock against horseflies and deerflies, spray both sides of the animal (at the rate of 4 seconds per animal) covering the back, flanks, legs with the spray. During periods of heavy infestation, spray morning and evening for extra protection. Spray 6 to 8 seconds on large animals such as dairy cattle, beef cattle and large ponies.

HORNFLIES AND MOSQUITOES: To protect livestock from hornflies and mosquitoes, spray the back, flanks and legs of each animal for 4 seconds. Spray each morning, or morning and evening when heavy infestation is present. Spray 6 to 8 seconds on large animals such as dairy cattle, beef cattle and large ponies.

LeGear

**FACE-FLY
AND
LIVESTOCK
SPRAY**

ACTIVE INGREDIENTS:	
Pyrethrins	0.20%
Technical Pyrethrin Butoxide*	0.40%
