

[6658-23]

CONTAINS SBP-1382TM, HIGH POTENCY BUG KILLER FOR MORE COMPLETE KILL

A new synthetic pyrethroid for controlling the following household flying and crawling insects: Houseflies, Mosquitoes, Gnats, Wasps, Roaches, Ants, Earwigs, Spiders, Grain Mites, Sowbugs and Centipedes.

For Ants: Spray trails, nests and points of entry. Spray on ants where possible. Repeat as necessary.

For Roaches, Waterbugs, Earwigs, Grain Mites, Sowbugs, Spiders and Centipedes: Spray thoroughly into hiding places such as cracks, crevices, moist areas, openings around pipes and sinks, under refrigerators, baseboards, and storage areas. Spray directly on insects where possible. Repeat as necessary.

For Houseflies, Mosquitoes and Gnats: Close all doors and windows. Point nozzle upward, direct the spray mist to all parts of the room, especially windows and other light sources which attract these insects. Fill the room with mist, then leave the treated area. Keep the room closed for at least 15 minutes. Ventilate the room when the treatment is completed.

Wasps: Application should be made in late evening when insects are at rest. Spray liberally into hiding and breeding places, contacting as many insects as possible. Repeat as necessary.

DIRECTIONS:

- Remove protective cap • Aim spray opening away from person. • Push button to spray.
- Hold dispenser 6 to 12 inches away from surface to be treated.
- Foods should be removed or covered during treatment. All food processing surfaces should be covered during treatment or thoroughly cleaned before using. Do not use the product in these areas, and do not use when the facility is not in operation.
