## CHLOREZ II

Another PROVEN SANITARY PRODUCT

AN ADVANCED INSECTICIDE FOR INSECT CONTROL  
BY RESIDUAL AND CONTACT APPLICATION

### Caution

Do not use in edible products area of food processing plants, restaurants or other areas where food is commercially prepared or processed. Do not use in serving areas while food is exposed.

Skin contact, as well as the contamination of foodstuffs should be avoided. In case of skin contact, the contacted areas should be washed with soap and water.

Avoid breathing spray mist.

The oil solution should not be applied to vegetation, household pets, and animals.

This product is toxic to fish and wildlife. Birds feeding on treated areas may be killed. Keep out of any body of water. Do not contaminate water by cleaning of equipment, or disposal of wastes. Apply this product only as specified on this label.

#### Directions For Container Disposal

**1 and 5 Gallon Cans.** Do not reuse empty container. Destroy it by perforating or crushing. Bury or discard in a safe place.

**30 and 55 Gallon Drums.** Do not reuse empty drum. Return to drum conditioner or destroy by perforating or crushing and burying in a safe place.

Dalco Chlorez II will provide residual action insecticidal protection. Also, this advanced formula gives quick knock-down and kill by contact. Applied as a coarse spray, it provides an invisible, tenaciously adhering, non-staining film. Quick knock-down and kill is obtained by direct contact in a fine spray. Due to its non-repellent characteristics, scattering of infestations is prevented.

GALLONS

FOR INDUSTRIAL USE ONLY

Directions for control of the following insects:

**Ants:** Argentine, Crazy, Red Harvester, Pharaoh's, Fire, and Lawn Ants.

Apply the spray to runways and areas visited, contacting as many of them as possible. Spray baseboards, door and window frames, sills, table legs, chairs, cupboards, and any points through which they may gain entrance into premises. Control of colonies may be obtained by pouring into ant hills and closing over with earth.

**2. Flies, Mosquitoes, and Gnats:** Apply to surfaces where these insects are commonly seen, such as screens, doors, selected areas of walls, windows and frames on interior and exterior surfaces. Avoid spraying in presence of any food stuffs, bins, vessels, containers, or equipment and utensils.

**3. Roaches (all species), Silver Fish, and Spiders:** Spray liberally around refrigerators, sinks, cabinets, under side of table tops, shelving, drains, plumbing fixtures, sanitary facilities, cracks, and crevices, around baseboard and woodwork, selected areas of walls and tile, hitting as many insects as possible as they emerge. In all cases avoid contact with foodstuffs, utensils, and food handling equipment. Repeat applications as often as necessary.
