WEED'N FEED 60

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION

3/5

Avoid contact with the skin, eyes or clothing. Avoid breathing dust. Wash thoroughly after handling. Causes moderate eye injury. When using this product, wear long sleeved shirt, long pants, socks and shoes. After using this product, remove clothing and launder separately before reuse and promptly and thoroughly wash hands and exposed skin with soap and water. The maximum number of broadcast applications per treatment site is 2 per year. Do not allow people (other than applicator) or pets on treatment area during application. Do not enter treatment area until dust has settled.

STATEMENT OF PRACTICAL TREATMENT

IF SWALLOWED:	Get medical attention.
IF ON SKIN:	Wash skin with soap and water.
IF IN EYES:	Immediately flush eyes with water for 15 minutes. If irritation develops, get medical attention.

ENVIRONMENTAL HAZARDS

This product is toxic to aquatic invertebrates. Drift or runoff may adversely effect aquatic invertebrates and non target plants. Do not apply directly to water.

DO NOT contaminate water when disposing of equipment washwaters.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. Read entire label before using this product. Use strictly in accordance with label precautionary statements and directions. **FOR HOMEOWNER USE ONLY.** GRO-GREEN WEED'N FEED 60 is a stable mixture of two herbicides. It is for use on home lawns, turf (excluding pastures, sod farms).

This product may be used on bluegrass, fescue, rye, bermuda, bahia, zoysia, centipede and St. Augustine grass. **DO NOT USE ON DICHONDRA AND BENTGRASS.** DO NOT USE this product where desirable clovers are present or allow the product to "wind drift" onto flowers, vegetables, ornamentals, shrubs, trees or other desirable plants.

This product is designed to promote lush green growth and control many broadleaf weeds in lawns. Some of these weeds are:

Black Medic, Buckhorn, Burdock, Chicory, Chickweed, Clover, Dock, Dandelion, English Daisy, Ground Ivy, Healall, Lambsquarters, Mallow, Morning Glory, Pigweed, Plantain, Poison Ivy, Poison Oak, Purslane, Ragweed, Red Clover, Red Sorrel, Stitchwort, Speedwell, Spurge, White Clover, Wild Carrot, Wild Garlic, Wild Onion, Wild Lettuce, Yarrow, and other broadleaf weeds.

WHEN TO APPLY: Best results are obtained when weeds are actively growing in Spring or early Fall.

IMPORTANT: Apply when grass is moist (after a rain, sprinkling, or dew). DO NOT water lawn after material is applied. For most effective broadleaf weed killing action, avoid unnecessary disturbances, including watering of treated areas, for 48 hours after application. Watering will wash off weed killing material. Avoid contact with valuable shrubs, plants or flowers. Do not over-apply. Do not reseed for at

4/5

least 3 to 4 weeks after application. Do not apply to newly seeded or sodded lawn until after 3 mowings.

NOTE: When applying to Southern Grasses - under conditions of inadequate moisture, high temperature and high humidity, over application may cause minor transitory discoloration on Centipede and St. Augustine grasses. It is recommended that during hot, dry conditions, application rates should be reduced 50% to avoid possible dehydration or browning of the grass.

HOW TO APPLY: This 16 (or 20) pound bag should be used on 5,000 square feet. Apply evenly with a lawn spreader as a one pass application. A two pass application, crisscrossing the area at half the rate each time, is also acceptable. Lawns that are heavily overrun with weeds and that are in poor condition may require more than one application of the product. A suggested second application should be made in approximately 30 days.

The following settings are approximate for applying contents of this package at a suggested rate of 3.2 pounds (4 pounds for 20 pound bag) per 1,000 square feet. Settings are based on an average walking speed. Reduce setting for slower speed; raise setting for higher speed. Check your spreader on 250 sq. ft. and adjust to apply at the rate of .08 lb. (1 lb. for 20 pound bag) per 250 sq. ft. Clean spreader thoroughly after use.

SPREADER SETTINGS -

Quick & Easy - We recommend the Cyclone (roto, broadcast) spreaders.

1. They cover 5,000 sq. ft. (50' X 100') in about 15 min.
2. Overlap 6-8" and you will get professional results without streaking.

On standard models set all makes about 1/5 of total opening.

Cyclone (Roto) Type	4
Scotts-Standard Models Only	5
Central, Greenfield Cross Country	6

These settings are furnished as a guide ONLY - Age, condition of spreader, speed of operation and roughness of terrain can cause variations in rates applied.

Sweep all fertilizer materials from concrete surfaces immediately after application. Do not wash material from concrete surfaces because fertilizers which contain iron may cause discoloration upon oxidation.

STORAGE: Always store in original container and keep any bags containing unused product in a locked storage area inaccessible to children and domestic animals. Do not store near foodstuffs or feed. To prevent cross contamination, do not store near other fertilizers, or near herbicides, insecticides, or fungicides.

PRODUCT DISPOSAL: To dispose of bags which contain unused product, securely wrap original bag in several layers of newspaper and discard in trash.

CONTAINER DISPOSAL: Do not reuse empty bag. Fold empty bag and discard in trash.

The Manufacturer and Seller make no warranties, express or implied, concerning this product or its use, which extend beyond the description on the face hereof. Buyer assumes all risk of use and/or handling of this material when such use and/or handling is contrary to label instructions.

(Optional Fertilizer and Advertising Information)

NITROGEN

Produces lush dark green plant growth

Essential for plants' protein development

PHOSPHATE

Promotes root growth and development

Essential element for all living plant tissue

POTASH

Improves lawn's hardiness and disease resistance

Strengthens lawn against winter damage

Contains Essential Iron for increased greening - Contains Controlled -Release Nitrogen

Covers Up to 5,000 Square Feet. Weeds contacted by this product gradually die and disappear from the lawn. This product is a premium grade herbicide and turf food combination which controls a wide spectrum of broadleaf weeds while providing both fast and long feeding action.

THE GREEN CHARM LAWN CARE PROGRAM

For optimum lawn care we recommend the following program:

1. GREEN CHARM Crabgrass Preventer Plus Fertilizer
2. GREEN CHARM Weed & Feed
3. GREEN CHARM Lawn Food
4. GREEN CHARM Winterizer
