Gentlemen:

Subject: TCGU Tetrachloroglycoluril  
EPA Registration No. 6682-4  
Your Amendment Application Dated October 1, 1985

The amendment to transfer one company name from another company must go through Ms. Lela Sykes. You can write her at this same address.

We are changing our records to reflect the change in product name from "Daxan Swimming Pool Sanitizer" to "TCGU Tetrachloroglycoluril."

It should be understood that henceforth all records for this registration will reflect the new name.

Sincerely yours,

A. E. Castillo  
Product Manager (32)  
Disinfectants Branch  
Registration Division (TS-767C)

## DOMESTIC ANIMALS

CAUTION: Harmful if swallowed, inhaled, or absorbed through the skin. Avoid breathing vapors or dust. Avoid contact with skin, eyes, or clothing. In case of contact immediately flush eyes or skin with plenty of water. Get medical attention if irritation persists.

ENVIRONMENTAL HAZARDS: This pesticide is Toxic to Fish. Keep out of lakes, ponds, or streams unless in accordance with NPDES Permit. Do not contaminate water by cleaning of equipment or disposal of wastes. For guidance contact the regional office of EPA.

PHYSICAL OR CHEMICAL HAZARDS: Oxidizing agent. Mix only with water. Use clean dry utensils. Open container only where adequate ventilation is available. Do not add this product to any dispensing device containing remnants of any other product. Contamination with moisture, organic matter, or other chemicals may start a chemical reaction with generation of heat, liberation of hazardous gases, and possible generation of fire and explosion. In case of contamination or decomposition, do not reseal container. If possible isolate container in open air or well ventilated area. Flood with large volumes of water.

**Flammable:** Keep away from heat and open flame.

Figure 1 displays 16 small plots arranged in a 4x4 grid. Each plot represents the spatial distribution of a single species. The plots are labeled with numbers 1 through 16. Each plot contains a unique arrangement of black dots, representing the presence of that species at specific spatial coordinates. The patterns of dots vary significantly between species, illustrating the spatial heterogeneity of the data.

Panel III: Content

DIRECTIONS FOR USE

IT IS A VIOLATION OF FEDERAL LAW TO USE THIS PRODUCT  
IN A MANNER INCONSISTENT WITH ITS LABELING.

This product is intended for manufacturers use only to formulate a bactericide and disinfecting agent for wastewater effluent treatment and other applications requiring a constant source of chlorine.

STORAGE AND DISPOSAL

STORAGE: Keep product dry in a tightly closed container when not in use. Store in cool, dry, well ventilated area. Keep away from heat and open flame. handle container with care; do not drop, roll, or skid. In case of decomposition, isolate container if possible and flood with large amounts of water to dissolve all material before discarding.

DISPOSAL: Do not dispose of material in dry form in waste container. Do not attempt to recover solid material. Dilute spill area with large quantities of water, at least 100 gallons of water per pound of material. Neutralize with sodium sulfite, sodium bissulfite, or sodium metasulfite. Collected neutral solution may be disposed of on-site or at an approved disposal facility.

Do not contaminate water, food, or feed by storage or disposal.

Do not reuse empty container. Wash thoroughly with water and discard in safe place.
