

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

USE RESTRICTIONS

For control of coyotes (*Canis latrans*) in dens only. Do not use near flammable material.

APPLICATION DIRECTIONS

First select den for treatment and obtain material to plug the entrance.

Then, with a sharp object at least 1/4 in. diameter, puncture each of the 4 openings at the top, marked "Insert Fuse". Insert one of center holes. Hold cartridge away from face and body and light.

Place cartridge, burning end forward, as far into entrance as possible. Close entrance to burrow with material. If burrow is deep, continue lighting fuse until flow out of ignited end. If shallow, place cartridge as deeply as possible with fuse end up, light, and close burrow.

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal.

Storage: Store in cool, dry place away from fire, heat and direct sunlight.

PESTICIDE DISPOSAL: To dispose of unused cartridges, soak in water, crush and burn, at least 6 ft. in loose soil.

CONTAINER DISPOSAL: Place in trash collection.

GAS CARTRIDGE FOR COYOTES

For control of coyotes (*Canis latrans*) in dens only.

NOT FOR SALE TO PERSONS UNDER 16 YEARS OLD.

Active Ingredients:

Sodium Nitrate-----100%
Charcoal-----35%
Total-----100%

CAUTION

KEEP OUT OF REACH OF CHILDREN

PRECAUTIONARY STATEMENTS

Hazards to Humans and Domestic Animals

CAUTION

After lighting, cartridge produces the toxic gas, carbon monoxide. Fumes may be harmful if inhaled.

STATEMENT OF PRACTICAL TREATMENT

If inhaled and person has breathing problems (headache, nausea, dizziness, and weakness), transfer victim to fresh air. Have victim lie down and keep warm. If respiration is adequate, recovery will be rapid. If breathing has stopped, use artificial respiration. If available, pure oxygen should be given.

CALL A PHYSICIAN IMMEDIATELY

ENVIRONMENTAL HAZARDS

Endangered Species Consideration

Do not use in those areas where the following endangered species may be known to have dens: red, mountain, and eastern timber wolves and San Joaquin kit fox.

CHEMICAL NAME

Once ignited by the fuse, this cartridge will burn vigorously until completely spent and is capable of causing severe burns to exposed skin and clothes, and of igniting dry grass, leaves and other combustible materials.

ACCEPTED

NOV 1 1984

6704-84

CONTAINS SODIUM NITRATE (65%) and CHARCOAL (35%)

REGISTRATION No 6704-84

Select den and material to plug entrance. Place cartridge deeply into burrow (fuse end up) and light, and immediately close burrow. See label for complete instructions.
