Do not spray directly on face. To apply to face, spray a small amount on hands and spread on face. Use just enough repellent to cover exposed skin and/or clothing. Do not use under clothing. Avoid overexposure. Frequent reapplication and saturation is unnecessary for effectiveness. After returning indoors, wash treated skin with soap and water. Wash treated clothing. Use of this product may cause skin reactions in rare cases. If you suspect that you or your child is reacting to this product, wash treated skin and call your local poison control center. If you go to a doctor, take this repellent with you.

Also apply to socks, pant cuffs and other openings in outer clothing. Safe to use on nylon, orlon, cotton and wool. Do not use on acetate, rayon or dyne. May damage plastics, furniture or painted surfaces.

Insect Repellent Pressurized Spray

Not an insecticide- this product is an insect repellent. Contains DEET for longer protection-resistant to perspiration, water and wear. Not greasy. Repels mosquitos, biting flies, deerflies, stable flies, chiggers, ticks and fleas on exposed skin and clothing. Also effective on bedrolls and tents. Repels mosquitos, blackflies and sand flies on screens and netting.

DISPOSAL: Replace cap and discard container in trash.
