

POISON

Contains Sodium Bisulfate and Oxalic Acid.

ANTI-DOTES:

EXTERNAL — Immediately flood surface with water. Wash surface with soap, then cover area with moist baking soda or magnesia.

EYES — Flush with flowing water for 15 minutes. Call physician at once.

INTERNAL — Drink 2-3 glasses of milk or water and several teaspoons of magnesia, chalk or wall plaster. **CALL PHYSICIAN.**

DANGER

Do not get in eyes or on skin. Is damaging to eyes and may be irritating to skin. Do not use with chlorine bleach or products containing chlorine. Can react to give chlorine gas. If this occurs, turn on cold water tap and leave area. Do not return for 1/2 hour; ventilate if possible.

Do not use on painted or enameled surfaces. Do not use on metal fixtures or drain connections.

Amway®

BOWL CLEANER

**Cleans Dependably
Deodorizes and Disinfects**

Instantly dissolving crystals foam with bubbling cleaning action to churn away residue and unsightly stains — the kind of cleaner you can use with confidence because it deodorizes and disinfects toilet bowls as it cleans if used according to directions. Will not interfere with septic systems or hinder bacterial action.

DIRECTIONS

Use only in toilet bowls. For both white and colored porcelain.

Flush toilet and, as water returns, add 3 Tbsp. Bowl Cleaner around the sides just below water level. Let stand for a few minutes or until bubbling stops. Brush solution up sides and under rim, then flush. If some stains persist, repeat application and let stand for 15 minutes. For disinfecting, follow above directions using 1/2 cup Bowl Cleaner.

To protect contents against moisture, snap cover into place after using. Store in cool, dry place. Do not reuse empty container. Destroy it by perforating or crushing. Bury or discard in safe place.

Sold only in homes by Amway distributors

COMPRESSED CHLORINE GAS

Active Ingredient: Chlorine 100%

Net Contents: 2000 pounds

DANGER

POISON

HAZARDOUS LIQUID & GAS UNDER PRESSURE

KEEP OUT OF REACH OF CHILDREN

Replace valve cap securely after disconnecting cylinder.

Do not handle or use until safety precautions recommended by supplier have been read and understood.

Avoid breathing air containing this gas. Avoid contact with skin or eyes. Do not heat containers. Have available emergency gas masks approved by U.S. Bureau of Mines for chlorine service. In case of exposure, move patient to fresh air, keep him warm and quiet, apply artificial respiration if necessary, and call a physician.
