Granular
HY-Kil-4

Non-Selective Weed & Grass Killer

ACCEPTED

JUN 13 1968

UNDER THE FEDERAL INSECTICIDE
FUNGICIDE AND RODENTICIDE ACT
FOR CONTROL OF POISON REGISTER-
ED UNDER NO. 672457 SUBJECT
TO ATTACHED COMMENTS.

Active Ingredients:

Bromacil (5-bromo-3-sec-butyl-6- Methyluracil)*.....	4.00%
Inert Ingredients.....	96.00%
Total	100.00%

*U.S. Pat. Pending, E.I. Dupont De Nemours & Company

General Information

Hy-Kil-4 is a granular non-selective weed killer to be applied dry on non-cropland areas where bare ground is desired. Hy-Kil-4 is non-corrosive, non-volatile, non-flammable, and is low in toxicity to man and animals under recommended conditions of use. The kill of weeds may be slow as the chemical is absorbed through roots of weeds and must be carried to root zone by moisture.

Directions for use

For best results apply Hy-Kil-4 just before or during the period of active growth of weeds. If dense growth is present, results will be improved if vegetation is removed before treatment. DO NOT apply when ground is frozen. Before applying, measure area to be treated and select rate per acre desired to get amount needed for treatment. Calibrate over a small area and get even coverage with the rate per acre selected. A seeder or granular herbicide applicator may be used. 2 1/3 cups of Hy-Kil-4 per 100 sq. ft. is approximately 400 lbs. per acre rate.

General Weed Control

Use the higher levels of the dosage ranges on adsorptive soils (usually those high in organic matter or carbon).

Retreatment

Apply 40 to 120 lbs. per acre when annual weeds and grasses reappear on sites where weed growth has been controlled.

CAUTION

May irritate eyes, nose, throat, and skin. Avoid breathing dust. Avoid contact with skin, eyes, and clothing.

IMPORTANT

DO NOT apply on or near desirable trees or other plants, or on other areas where their roots may extend, or in locations where the chemical may be washed or moved into contact with their roots. DO NOT use on lawns, walks, driveways, tennis courts, or similar areas. DO NOT apply near desirable plants. DO NOT contaminate domestic waters. Keep from contact with fertilizers, insecticides, fungicides and seeds. Thoroughly clean application

The kill of weeds may be slow as the chemical is absorbed through roots of weeds and must be carried to root zone by moisture.

A seeder or granular herbicide applicator may be used. 2 1/3 cups of Hy-Kil-4 per 100 sq. ft. is approximately 400 lbs. per acre rate.

General Weed Control

To control most weeds for an extended period of time on non-cropland areas such as railroad and pipeline right-of-ways, petroleum tank farms, lumber yards, storage areas, industrial plant sites, and around farm buildings; apply 60 to 120 lbs. per acre to control annual weeds and grasses such as foxtail, crabgrass, bromegrass, ragweed, and lambsquarters. To control perennial weeds and grasses, apply 140 to 240 lbs. per acre. This rate will control such grasses and weeds as bahiagrass, smooth brome, quackgrass, dog fennel, goldenrod, plantain and wild carrot.

To control hard to kill perennial grasses such as Bermudagrass, Johnson grass, Dallis grass, Nutgrass, and vasey grass; apply 300 to 600 lbs. per acre.

Annual weeds and grasses reappear on sites where weed growth has been controlled.

CAUTION

May irritate eyes, nose, throat, and skin. Avoid breathing dust. Avoid contact with skin, eyes, and clothing.

IMPORTANT

DO NOT apply on or near desirable trees or other plants, or on other areas where their roots may extend, or in locations where the chemical may be washed or moved into contact with their roots. DO NOT use on lawns, walks, driveways, tennis courts, or similar areas. DO NOT apply near desirable plants. DO NOT contaminate domestic waters. Keep from contact with fertilizers, insecticides, fungicides and seeds. Thoroughly clean application equipment after use. DO NOT use equipment with which HY-Kil-4 has been applied, for applying insecticides, fungicides, and fertilizers, as plant injury may result.

NOTICE: Sellers ^{warranty} ~~guaranty~~ shall be limited to the terms of the label and subject thereto. The buyer assumes any risk to persons or property arising out of use or handling, and accepts the product on these conditions.

ACTUAL NET WT. 12.5 LBS. (2 x 11)

USDA REG. NO. 6120-

CAUTION: KEEP OUT OF REACH OF CHILDREN.
