**THIS SMCP ROACH SPRAY CONCENTRATE IS ESPECIALLY DESIGNED FOR USE
IN CAFES, RESTAURANTS, FOOD STORAGE WAREHOUSES AND FLOUR MILLS.**

DIRECTIONS FOR USE

For use in SMCP ROACH SPRAY CONCENTRATE, TRAIT, 2.0% by weight of concentrate in base oil.

ROACHES AND WATERBUGS: Apply to cracks and crevices in walls.

FLIES, MOSQUITOES AND GNATS: Discharge and discharge spray into vigorously in all parts of room, using one to two or three ounces for each 1000 cubic feet of space. Leave room closed for at least 10 minutes. Repeat as needed.

FLEAS (infesting premises): Remove and destroy animal bedding and spray sleeping quarters freely, forcing the spray into the cracks in the floor and against the room. Also spray floor and other living areas. Repeat when re-infested.

GRAIN WEEVILS, CADELLES, GRAIN MOTHS, FLOUR BEETLES AND GRAIN MITES: (infesting stages)

At a distance of 10 feet, spray into the air, using one to two ounces for each 1000 cubic feet of space. Repeat as needed.

FOG AND MIST TYPE APPLICATORS: FOR CONTROL OF FLIES, MOSQUITOES, GNATS. SMCP ROACH SPRAY CONCENTRATE should be diluted one part of concentrate plus nine parts base oil for use in these machines.

In places where extremely dry fogs are required, it is suggested that one gallon of concentrate be used with one gallon of base oil. In thermal generators, heavier oils, such as mineral seal oil, may be used as part of the diluent if desired. One gallon of mixture is suggested as above for a dry fog in 50,000 cubic feet.

PROPER RESPIRATORS SHOULD BE WORN BY THOSE EXPOSED TO A FOG OF THIS MIXTURE.

CAUTION: COMBUSTIBLE MIXTURE
