**PRECAUTIONARY STATEMENTS
Hazards to Humans & Domestic Animals
KEEP OUT OF REACH OF CHILDREN
CAUTION**

May be harmful if swallowed. Do not take internally. Avoid eye contact. Wash with plenty of water and get medical attention if irritation persists. Wash clothing before reuse. Keep away from food, feedstuffs and domestic animals. Do not treat areas until material is washed into the soil and grass is dry.
NOTE TO PHYSICIAN: Active ingredient is a cholinesterase inhibitor.

ENVIRONMENTAL HAZARDS

This product is toxic to birds, fish and other wildlife. Keep out of area where cleaning of equipment or disposal of wastes. Do not apply where runoff is expected. See label for restrictions.

STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage or disposal.
STORAGE: Avoid storage at high temperatures. Protect from moisture. Keep container closed. Store in original containers only. Separate from other pesticides, fertilizer, food and feed. Keep container in locked area.
PESTICIDE DISPOSAL: Pesticide wastes are toxic. Improper disposal is a violation of Federal law. If these wastes cannot be disposed of by other means, they should be disposed of by a State Pesticide or Environmental Control Agency, or the Hazardous Waste Response Office for guidance.

CONTAINER DISPOSAL: Completely empty bag into application equipment or landfill or by incineration, or if allowed by State and Local authorities.

STATEMENT OF PRACTICES

■ Swallowed — Call a physician or Poison Control Center. Drink plenty of water. Do not touch back of throat with finger. Do not induce vomiting or give emetics.
■ on Skin — Wash with plenty of soap and water. Get medical attention if irritation persists.
■ in Eyes — Flush with plenty of water for 5 minutes. Get medical attention if irritation persists.
■ Inhaled — Remove to fresh air if effects occur. Get medical attention if irritation persists.
Note to Physicians — Chlorpyrifos is a cholinesterase inhibitor. The red blood cell cholinesterase tests may indicate significance of exposure. Atropine, if given only by injection, is the preferable antidote. Oximes, such as 2-PAM, however, use only in conjunction with atropine. In case of severe poisoning, after establishing an open airway and respiration.

IMPORTANT: Read these entire Directions and Precautions for the use of DURSBAN[®] ASIAN ROACH BAIT Insecticide.
DISCLAIMER: SMCP warrants that this product conforms to the label and is reasonably fit for the specific purposes stated on the label, subject to the inherent risks referred to above. SMCP makes no warranty of fitness or merchantability or any other express or implied warranty. SMCP shall not be liable for consequential, special, or incidental damages resulting from the use or handling of this product.
