

General Information

Diazinon 4 S is an oil soluble containing 4 lbs. of Diazinon per gallon. It is intended for use by pest control operators after dilution with insecticidal base oils for the control of those insects listed below. Diazinon 4 S is not intended for use in the manufacture of finished products for resale.

Note: The solvent used in this formulation is a petroleum distillate which may stain certain plastic, rubber, and asphalt materials such as tiles and floor coverings. Do not treat such materials. When used in dwellings, care should be taken to avoid deposits which could be frequently contacted by children. Do not allow children in treated areas until surfaces are dry. Do not contaminate food, food containers, or cooking utensils.

Do not use in commercial food preparation areas or in edible product areas of food processing plants.

Directions for Use

To Control Household Insects.** Dilute Diazinon 4 S with deodorized kerosene or other suitable base oil to make a $\frac{1}{2}\%$ or 1% Diazinon spray and apply as indicated below. Repeat application as necessary.

Spray Dilution Chart

Gals. or finished spray	Amount of Diazinon 4 S to use for	
	$\frac{1}{2}\%$ spray	1% spray
1	1.0 fl. oz.*	2.0 fl. oz.
2	2.0 fl. oz.	4.0 fl. oz.
3	3.0 fl. oz.	6.0 fl. oz.
10	10.0 fl. oz.	20.0 fl. oz. (1.25 pts.)
25	25.0 fl. oz. (1.6 pts.)	50.0 fl. oz. (3.1 pts.)

*2 tablespoons = 1 fl. oz.

Cockroaches (Waterbugs), Ants, and Silverfish:

Make spot applications of $\frac{1}{2}\%$ Diazinon as a coarse spray or apply with a paint brush to baseboards, areas around water pipes, cracks and crevices, surfaces behind and beneath cabinets, refrigerators, sinks, stoves and similar areas where these insects hide.

For heavy cockroach infestations, make the first application at a strength of 1% Diazinon, followed by monthly applications of $\frac{1}{2}\%$ Diazinon.

Carpet Beetles:

Apply a $\frac{1}{2}\%$ Diazinon spray in spot applications along baseboards and edges of carpeting, under carpeting and rugs and furniture, in closets and on shelving, and wherever these insects are seen or suspected.

Spiders and Scorpions:

Apply a $\frac{1}{2}\%$ Diazinon spray around windows, doors, and along baseboards. Make spot applications to other areas over which these insects pests may crawl.

Pantry Pests—exposed stages (Saw-toothed Grain Beetle, Flour Beetle, Rice Weevil, Cigarette Beetle, Drugstore Beetle, Indian-meal Moth):

Apply a $\frac{1}{2}\%$ Diazinon spray to shelves and cupboards where food containers suspected of being infested are stored. Remove all food and shelving paper before spraying. Do not replace the food packages until spray has dried. Cover shelves with shelving paper. This treatment is supplemental to good housekeeping, since it will have no effect on insects breeding within food packages. Infested food packages should be destroyed.

Brown Dog Ticks in Buildings:

Make thorough application of a $\frac{1}{2}\%$ Diazinon spray to infested areas around baseboards, windows and door frames, wall cracks, sleeping quarters of household pets, and localized areas of floors and floor covering. Fresh bedding should be placed in animal quarters following treatment. Do not treat animals with this formulation.

DIAZINON*4-S INSECTICIDE

For Use By Pest Control Operators Only. For Dilution with Insecticides Base Oils. For Control of Cockroaches And Certain Other Household Pests.

ACTIVE INGREDIENTS

O,O-diethyl O-(2-isopropyl-6-methyl-4-pyrimidinyl) phosphorothioate	48.6
Aromatic Petroleum derivative solvent	42.6
INERT INGREDIENTS	8.8
TOTAL	100.0

Diazinon 4S contains 4 lbs. Diazinon per gallon.
