

**DIRECTIONS FOR USE**

**COTTON:** For control of the weevils, bollworm, cutworms, armyworms, lygus, leafworm, and grasshoppers, use 2 to 4 pints of this material suitably diluted with water per acre. For control of thrips and fleahoppers, use 1 to 2 pints diluted with water per acre. Cotton that has received late applications of this material should not be grazed by dairy cows or animals being finished for slaughter.

**SNAP BEANS (Florida Only):** For control of Florida bean beetle, leafhopper, bean leafroller, cowpea curculio, corn earworm, and other predators, use 1 to 2 pints of Toxaphene 8E suitably diluted with water per acre. Do not make more than one application, and do not spray within 10 days of harvest.

**PINEAPPLE:** For control of the pineapple weevil, make 2 to 3 applications at blossoming time. Make the first application at the beginning of the flowering period, and the second application 7 to 10 days later. Make a third application if necessary. Use 1 to 2 pints of Toxaphene 8E per acre dispersed in a suitable volume of water. Do not use water from treated pineapple to irrigate nearby areas.

**ORNAMENTAL TURE:** For control of the weevils, cutworms, and Florida armyworms, apply 1 to 2 pints of Toxaphene 8E suitably diluted with water per acre. Do not use water from treated areas to irrigate nearby areas.

**WARNING**

Material is highly toxic to fish and aquatic life. Do not use in or near streams, rivers, or other bodies of water. Do not use in or near areas where water is used for drinking or other domestic purposes. Do not use in or near areas where water is used for irrigation. Do not use in or near areas where water is used for livestock watering.

DO NOT USE, POUR, SPILL, OR STORE NEAR HEAT OR OPEN FLAME

**NET CONTENTS:**

**TOXAPHENE 8E**

**EMULSIFIABLE LIQUID**

**Contains 8 pounds Toxaphene per gallon**

**ACTIVE INGREDIENTS:**

Toxaphene (technical chlorinated camphene containing 67 - 69% chlorine) ..... 72.0%

Xylene ..... 23.0%

**INERT INGREDIENTS** ..... 5.0%

**TOTAL** ..... 100.0%

**WARNING: KEEP OUT OF REACH OF CHILDREN**

See other precautions and directions on side panels

E.P.A. Reg. 6720-218

E.P.A. Est. No. 6720-FI-1

### **ENVIRONMENTAL CAUTIONS**

This product is toxic to birds, fish, and aquatic life. Keep out of lakes, streams, rivers, and oceans. Do not apply when weather conditions favor drift from areas treated. Do not store or dispose of wastes. Apply this product according to label directions. Destroy all containers when empty. Do not reuse containers for other purposes. Do not bury in rural or residential areas. Do not dump in water.

**FLORIDA:** Do not apply to water.

### **ANTIDOTE**

**INTERNAL:** Give sodium bicarbonate solution 1/2 to 1 OZ of 1% solution repeat until vomits stop.

**EXTERNAL:** Wash with soap and water.

### **NOTE TO PHYSICIAN:**

Toxaphene is a potent irritant to the skin and mucous membranes. It is also a powerful emetic. Treatment should be symptomatic. Do not use tannic acid derivatives. Prevent absorption. For eye contact, irrigate with water or saline solution. For ingestion, induce vomiting. If the patient does not vomit after 15-30 minutes, give 10-20 mL of 1% sodium bicarbonate solution. For severe cases, phenobarbital may be used after consulting a physician. For information on Economic Pesticides, which was developed by the U.S. Department of Public Health, see "Economic Pesticides" published by the U.S. Government Printing Office, Washington, D.C. (1973).

**NOTICE:** Seller's liability is limited to the terms of this label. Buyer assumes any risk to persons or property from the use of this product under these conditions.
