NOTE: Changes in labeling or formula differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above EPA registration number.

On the basis of the information furnished by the registrant, the above named pesticide is hereby registered under the Federal Insecticide, Fungicide, and Rodenticide Act.

A copy of the labeling accepted in connection with this registration is returned herewith.

Registration is in no way to be construed as an endorsement or approval of this product by this Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

The following paragraphs are applicable only when checked:

The registration for this product is being issued with the understanding that certain defects in the labeling which are noted below will be corrected as soon as possible. Objection is not raised to the use of the present labeling for a reasonable period of time while fully corrected labeling is being prepared. Three copies of the corrected labeling must be submitted.

This registration is being issued with the understanding that the finished printed labels for this product will meet the following requirements.

1. The precautionary section of the label must be revised to include the statement "Do not induce vomiting, call a physician immediately." These statements should follow the present statement "Harmful if swallowed."

2. The front panel precautionary labeling must meet the type size and prominence requirements. Refer to the enclosure for reference to proper type size for the signal word and the statement "Keep Out of Reach of Children."

3. The net contents of each container must appear on the label.

Submit 5 copies of the finished label for the lot container for our files.

ACTIVE INGREDIENTS:	
Prometon (2,4-Bis(isopropylamino)-6-methoxy-3-triazine)*	3.73%
Petroleum distillate	80.91%
INERT INGREDIENTS:	15.36%
	TOTAL 100.00%

*Pramitol (R), trademark of Ciba-Geigy Corporation

CAUTION:
KEEP OUT OF REACH OF CHILDREN

Harmful if swallowed.
Avoid contact with eyes and skin.
In case of skin contact, wash with soap and water.
Avoid inhalation of spray mist.

Avoid contamination of food and feed.
Do not contaminate water by cleaning of equipment or disposal of wastes.
Do not contaminate water used for irrigation or domestic purposes.

Do not reuse container. Destroy when empty.

Do not use, pour, spill or store near heat or open flame.

Apply this product only as specified on this label.

Store at temperatures above 32°F.

Important: Read the entire Directions for Use and the Conditions of Sale and Warranty before using this product.

DIRECTIONS FOR USE

Uniformly spray one gallon of VEGETATION KILLER mixed in ten gallons of water over 1000 sq. ft. of soil surface. Thoroughly wet all foliage to insure contact action. Best results are obtained when applications are made during or soon after weed emergence while growth is succulent. Where vegetation is tall and dense, use 1½ gallons of VEGETATION KILLER in ten gallons of water per 1000 sq. ft. For control of hard-to-kill perennial weeds and grasses such as Johnsongrass, Bindweed, Puncturevine, and Wild Carrot, use 3-4½ gallons per 1000 sq. ft. Although VEGETATION KILLER has considerable activity through foliar contact, much of its activity is through the roots and therefore, adequate rainfall to move the chemical into the root zone is necessary.

Under conditions where the rainfall is high and the growing season long, a second application may be necessary to maintain a weed-free soil surface.

Care must be taken to keep this herbicide away from desirable flower beds, lawns and shrubs. Do not apply over roots of valuable trees, or woody ornamental plants. Only apply herbicide outside of the drip line of trees.

NOTICE: Seller's guaranty shall be limited to the terms of the label and subject thereto. The buyer assumes any risk to persons or property arising out of use or handling and accepts the product on these conditions.
