DURSBAN\* 1% GRANULAR

ACCEPTED

NOV 2 5 1987

Under the Person Secticide, Fungicide, and nodenticide Act, as amended, for the pesticide registered under 126-234
EPA Reg. No. 1726-234

## FOR CONTROL OF MOSQUITO LARVAE

To Be Applied Only By Trained Personnel of Public Health Organizations, Mosquito Abatement Districts, Public Mosquito Control Programs and Professional Pest Control Operators

**ACTIVE INGREDIENT:** 

Chlorpyrifos, (0,0-diethyl 0-(3,5,6-trichloro-2-

TOTAL......100.0%

Dursban\* - Reg. Trademark of The Dow Chemical Company U.S. Patent No. 3,244,586

This product contains the toxic inert ingredient Methylene Chloride

### **DIRECTIONS FOR USE**

Use Dursban 1% Granular to control mosquito larvae in non-crop areas that serve as breeding sites for these pests. Apply using any hand operated or ground vehicular mounted gravity or rotary spreader or seeder or with aerial application equipment that will provide uniform distribution of the granules.

**FLOODED AREA TREATMENT:** Apply uniformly over flood water impoundments whenever mosquito larvae are present. Use Dursban 1% Granular at the rate of 2.5 to 5 pounds per acre. This rate is equivalent to 0.025 to 0.05 pound of active ingredient per acre.

PRE-HATCH TREATMENT: Many mosquito breeding areas are not covered by water during certain months of the year, yet these areas contain mosquito eggs from which larvae will hatch and grow to maturity when flooding occurs. To control these larvae uniformly apply Dursban 1% Granular at the rate of 10 pounds per acre over the known breeding sites prior to time flooding is expected. This rate is equivalent to 0.1 pound of active ingredient per acre.

# CAUTION KEEP OUT OF REACH OF CHILDREN

### **Human Cautions:**

May be harmful if swallowed. Avoid eye contact. Wash thoroughly after handling. Wash contaminated clothing before re-use. Flush contaminated eyes with plenty of water and get medical attention if irritation persists. Keep away from food, feedstuff and domestic supplies.

NOTE TO PHYSICIAN: Active ingredient is a cholinesterase inhibitor. Treat symptomatically. Atropine is an antidote.

#### **Environmental Cautions:**

This product is toxic to fish, birds, and other wildlife. Do not apply where runoff is likely to occur. Do not apply when weather conditions favor drift from areas treated. Do not contaminate water by cleaning of equipment, or disposal of wastes. Shrimp and crab may be killed at application rates recommended on this label. Do not apply where these are important resources. Apply this product only as specified on this label. Keep out of lakes, streams, ponds, tidal marshes and estuaries.

Do not reuse empty container. Destroy it by burying with waste or burning. Stay away from smoke or fumes.

NOTICE: Seller's guaranty shall be limited to the terms of the label and subject thereto. The buyer assumes any risk to persons or property arising out of the use or handling and accepts the product on these conditions.

CAUTION: KEEP OUT OF REACH OF CHILDREN
