PESTS OF LAWNS AND OTHER ORNAMENTAL AND RECREATIONAL TURF GRASS AREAS:

To control Ants, Brown Dog Ticks, Chinch Bugs, Crickets, Cutworms, Earwigs, Grasshoppers, and Sod Webworms (Lawn Moths), Mix LAWN & ORNAMENTAL SPRAY according to directions given in the following table and apply as a coarse low-pressure spray. For best results the lawn should be moist at the time of treatment and care should be taken to obtain complete and uniform coverage of pest infested areas. Spray when pests first appear; retreat when needed. Control for Chinch Bugs will last up to 8 weeks. To prevent damage from Chinch Bugs apply as soon as daily temperatures reach 80°F and repeat every 2 months.
