NET CONTENTS 1 OUNCE

DOUBLE-ACTING OMNI-DUST® kills insects by physical dehydration and chemical action. Contact alone will kill — ingestion is not required. **OMNI-DUST** remains active as long as it is visible on surfaces.

DIRECTIONS: Lice, Ticks, Fleas — Apply **OMNI-DUST** to body of animal, working it into skin. Where ticks are seen, dust them directly. Repeat once a week if necessary.

Use on animal bedding, floor, and around animal living quarters at rate of 1 ounce per 50 square feet.

In laboratories breeding small animals such as mice, rats and guinea pigs, mix **OMNI-DUST** into animal bedding at the rate of 45 grams per 135 grams of bedding. Floors should be treated as well.

Do not use on reptiles, fish, or mice under five days old

Roaches, Ants, Waterbugs, Silverfish — Apply **OMNI-DUST** lightly, but completely, along baseboards, around pipes of sinks, stoves, bathroom fixtures, behind and under appliances, cabinets, and in all cracks and crevices where these insects hide. For ants, pay particular attention to door and window sills. Repeat as often as necessary. Use 1 ounce per 50 square feet.

CAUTION: Apply only to areas inaccessible to children. This product is toxic to fish. Cover or remove aquaria in areas to be treated. Do not contaminate water by cleaning of equipment, or disposal of waste. Do not reuse containers. Destroy by burying or burning. Stay away from smoke or fumes.

Seller makes no warranty, expressed or implied, concerning the use of this product other than indicated on this label. Buyer assumes all risk of use and or handling.
