DANGER—POISON—PRECAUTIONS

POISONOUS IF SWALLOWED. This product can kill you if swallowed even in small amounts. Wash skin with soap and water if dust may be transmitted.

PRECAUTIONARY STATEMENTS HAZARDS TO HUMANS AND DOMESTIC ANIMALS

POISON POISON

POISONOUS IF INHALED. Inhalation of vapor alone can cause death.

DANGER

POISONOUS IF CONTACTED. Prolonged contact with skin can cause death.

POISONOUS IF SKIN CONTACT. Prolonged contact with skin can cause death.

INFORMATION FOR PHYSICIAN

This product contains 4.2% organophosphorus. As with all organophosphorus products, ingestion should not be treated with emetic induction, or induced vomiting. Induced vomiting is contraindicated. If the product is swallowed, give 15 ml (1 tablespoon) of mineral oil orally and give 4 oz. (1/8 cup) of 3% hydrogen peroxide intravenously immediately. Call a certified Poison Control Center at 1-800-222-1222 or your local health authority. Keep product away from children. Do not store with other materials.

USE ONLY WHEN WEARING THE FOLLOWING PROTECTIVE EQUIPMENT AND CLOTHING

Protective Clothing Required:

- Wear clean protective clothing, goggles, and respirator approved by NIOSH or the American National Standards Institute when applying or handling, or when reentering fields within 24 hours of treatment.

The following protective clothing must be worn: lightweight, unlined, natural rubber gloves at least mid-finger in length; a wide brimmed waterproof hat or waterproof hood; a protective suit or coveralls of a non-permeable, non-slip material covering the body from ankles to wrists; lightweight, unlined, natural rubber boots at least mid-calf in length; full-face respirators are recommended; half-face respirators and goggles are required.

Aerial applicators in positive pressure cockpits and other applicators in comparable ground equipment with appropriate filters at all air intakes need not comply with these protective clothing requirements.

WARNING—RESPIRATOR Must be properly fitted. A respirator that is worn properly is worth nothing unless it is worn properly.

FIRST AID TREATMENT

IP SWALLOWED—Drink 1 or 2 glasses of water and induce vomiting by standing back of child with knees or butt child in hands. Do not induce vomiting if the victim is unconscious or in coma. Do not give anything other than water by mouth to an unconscious person. Do not induce vomiting in vomiting in children. Remove any clothing and wash skin with soap and water.

IP INHALED—Allow victim to inhale fresh air. If symptoms persist or are severe, seek medical attention.

IP SKIN CONTAIRED—Wash skin with soap and water. Do not allow victim to eat or drink.

IP EYE CONTACT—Wash eye with running water for 15 minutes. Do not attempt to remove any person from the eye. Seek medical attention.

IP WASHING SYMPTOMS Into After GETTING—Remove any clothing and wash skin with soap and water. Do not allow victim to eat or drink.

dispersion. Be sure to dispense any remaining product into the tank at the recommended level. Follow all instructions for use. This product is not to be used in air handling equipment. After use, thoroughly clean equipment and wash with soap and water. Do not allow to come into contact with food. Do not use on or near fish or wildlife. Do not allow to come into contact with seafood. Do not allow to contaminate food or water. Do not contaminate food or water. Do not contaminate food or water. Do not contaminate food or water. Do not contaminate food or water. Do not contaminate food or water.

COVTICUS: LEMCION, UNTIL MATTED. DRY MATERIALS FOR USE.

**DANGER—POISON—PRECAUTIONS**

- **WORK SAFETY RULES**
  - Keep all unauthorized persons and children away from treated areas where there is danger of drift.
  - Do not apply at dusk or at night with lamps. If you feel fog in any way about dusk and drop lamp, put out cautiously. Cool a motor immediately, clean or wash it immediately. Rinse that portion of the motor and all surrounding areas. Remove all pets, children, and animals from the area. After this has been accomplished, start the engine and test the motor for 15 seconds to cool off.

- **POISON SIGNS (Symptoms)**
  - **FIRST AID PROCEDURES, ANTIDOTES AND PHYSICIANS' INSTRUCTIONS.**
  - **FIRST AID TREATMENT**
    - If SWALLOWED—Drink 1 or 2 glasses of water and induce vomiting of remaining liquid after mixture of both.
    - Do not induce vomiting in case of children or in case of unconscious patient.
    - If INHALED—Inhale from a carbon dioxide breathing apparatus.
    - If INJECTED—Immediately secure patient from the danger of infection. Keep a sedated patient at 90°. When unconscious, wash skin thoroughly under running water.
    - If BURNED—In case of contact, immediately remove from the treated area and wash with water for at least 15 minutes.
    - If INJURED—Treat for injuries as needed. Use no treatment if in contact with the skin. Wash and inspect thoroughly.

- **ANTIDOTE—AEROSOL**
  - The specific antidote for methyl parathion poisoning: Skins for parathion, apply 1/1000 gm. solution to back, breast, and hands.

**ENVIRONMENTAL HAZARDS**

This product is toxic to fish and wildlife. Birds and other animals do not eat treated areas. Keep all pets and other birds out of any body of water. The net application will be stored in the treated area. Do not allow water to run into bodies of water. APPLY ONLY AS SPECIFIED ON THIS LABEL.

This product is highly toxic to bees exposed to direct treatment or residues on blooming crops or weeds. Do not apply this product or allow it to drift to blooming crops or weeds if bees are visiting the treatment area.

Do not apply this product when weather conditions favor drift from treated areas.

RECOMMENDATIONS

COTTON: — Cotton Aphid, Thrip, Cotton Flea
worm, Cotton Fleas, and certain species of
Spider Mites apply 1 pint per acre in sufficient
water for thorough coverage. For the control
of Halt Weevil and Cotton Bollworm apply 2
pints per acre in sufficient water for thorough
coverage. Application should be made at 4-5
day intervals until control is obtained. Do not
hand pick or harvest within 7 days of applica-
tion. Workers entering fields within 24 hours
after application should wear protective cloth-
ing.

Do not apply to blooming cotton if bees are visiting the
treatment area.

SOYREAS: (Southeast States only) For cotton
bollworm control, apply 2 pints per acre in suf-
ficient water to obtain thorough plant coverage.
Begin application when counts show one boll-
worm per 3 feet of soybean row; repeat as ne-
necessary. Do not graze or feed forage from treat-
ed fields to livestock within 21 days after last
application. Do not make more than two appli-
cations per growing season.

Mr. Edward H. Yefertiller
Tide Products Inc.
P.O. Box 1029
Edinburg, TX 78539

Dear Mr. Yefertiller:

Subject: Revised labeling per EPA Notice
of September 23, 1983
Tide KPI-5G,
EPA File Symbol 876-123-AA-6731
Registrar 42, EPA Registration No. 6735-154
Registrar 33, EPA Registration No. 6735-238
Tide KPI-4E, EPA Registration No. 6735-142

With the exception of the label for "Tide KPI-5G" (distributor) the labeling referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide and Rodenticide Act, as amended, is acceptable. A stamped copy of each of the above labels is enclosed for your records. The distributor label is also accepted, but will remain with our records for this product.

Sincerely yours,

Jay S. Ellenberger
