# QUIXIDE

## INSECTICIDE CONCENTRATE

QUICK — ODORLESS — NON STAINING  
(WHEN USED AS DIRECTED)

✓ FLIES ✓ MOSQUITOES ✓ FLYING MOTHS ✓ GNATS ✓ WASPS  
✓ ROACHES ✓ SILVERFISH ✓ BEDBUGS ✓ SPIDERS ✓ ANTS  
ACTIVE INGREDIENTS

* Technical	* Equivalent to .50% (Butyl-
Piperonyl Butoxide . . . . . 63%	carbityl) (6-Propylpiper-
Pyrethrins I and II . . . . . 25%	onyl) ether and .13% of
Petroleum Distillates . . . . . 99.12%	other related compounds.
TOTAL . . . . . 100.00%	

**CAUTION: KEEP OUT OF REACH OF CHILDREN.**  
Quixide is a combustible mixture and should be kept away from fire. Harmful if swallowed. Keep out of reach of children. Remove or cover exposed foods before spraying.

### DIRECTIONS:

**ANTS:** Spray trails, hills, around window sills and openings around pipes and baseboards where ants crawl, hitting as many as possible.

**SPIDERS, CENTIPEDES, SOW BUGS:** Spray webs and the places where these pests crawl. Hit as many as possible. Repeat as needed.

**CARPET BEETLES:** Hit these bugs directly with spray on sections of floor, baseboards, shelves and carpets. Repeat spraying at frequent intervals.

**BEDBUGS:** Spray baseboards, moldings, floor boards. Spray mattresses, particularly around seams and tufts. Take beds apart and spray into all joints. Repeat spraying at frequent intervals.

**FLEAS:** Spray floors, floor coverings and sleeping quarters for pet. Repeat spraying as often as necessary. Do not spray pets.

In fogging food areas, cover all exposed foodstuffs.

For best results, use in Dyna-Fog machines or challenger sprayers.

USDA REG. NO. 6762-A

### DIRECTIONS:

QUIXIDE quickly kills many flying and crawling insects found in schools, hospitals, institutions, cafeterias, storage buildings and food plants when used as directed.

**FOR FLYING INSECTS:** Flies, Mosquitoes, Flying Moths, Gnats, Wasps. There is no need to spray directly at flying insects - the mist in the air will kill them. Close all doors and windows. Spray or fog up into the air with a sweeping motion, keeping about 3 feet from interior walls, fabrics, furniture and plants. Keep room closed 15 minutes. Don't waste - a little goes a long way!

**FOR CRAWLING INSECTS:** Roaches, Waterbugs, Silverfish, Crickets. Spray hiding places such as baseboards and floor boards, moist places, openings around sinks, drains and pipes, behind bookcases, cabinets, and other storage areas, hitting as many bugs as possible. Repeat as needed.

### CAUTION

"Foods should be removed or covered during treatment. All food processing surfaces should be covered during treatment or thoroughly cleaned before using. When using the product as a space spray in these areas, apply only when plant is not in operation."
