

DESCRIPTION

Weedex 65 is a specialized weed, grass and brush killer formulation formulated for fast, efficient use around highways, railroad right of ways, fire lanes, and other non-crop areas.

DIRECTIONS

Add the recommended amount of Weedex 65 to about one half the volume of water or oil to be used in spraying. Mix well, then add the remaining water or oil and mix until spray mixture is uniform. Continue mixing while spraying. Do not let water get into brush killer oil sprays used in stump or basal treatment.

Weedex 65 is a mixture of 2,4-D and 2,4,5-T which can be mixed with water or dissolved in oil. Weedex 65 is designed for weeds and woody growth which are controlled better by a mixture of 2,4-D and 2,4,5-T than either agent separately. Brambles, Lilacs, some hollyhocks, osage, and other persistent ground covers and horse nettles are typical of the vegetation which can be controlled along fence rows, right of way, highways, in pastures and on railroad tracks and beneath power lines.

WEEDEX 65

Low Volatile Ester Weed Grass & Brush Killer

FAST ACTING 1 GALLON MAKES 65 NON-CLOGGING
DILUTED WITH OIL OR WATER EXCELLENT FOR RURAL FENCE ROWS

CONTAINS

1 LB. 2,4-D AND 1 LB. 2,4,5-T
ACID EQUIVALENT PER GALLON

ACTIVE INGREDIENTS

*Isooctyl Ester of 2,4-Dichlorophenoxyacetic Acid 1.25%
**Isooctyl Ester of 2,4,5-Trichlorophenoxyacetic Acid 16.50%

INERT INGREDIENTS

*Equivalent to 11.4% of 2,4-Dichlorophenoxyacetic Acid
**Equivalent to 11.4% of 2,4,5-Trichlorophenoxyacetic Acid

**DO NOT USE, POUR, SPILL OR STORE NEAR HEAT OR OPEN FLAME
CAUTION: KEEP OUT OF REACH OF CHILDREN**

See side panel for additional precautions.

Stern's guarantee shall be limited to the terms of the label and subject thereto the buyer assumes any risk to persons or property arising out of use or handling and accident to the product on these conditions.

S AN EXCLUSIVE PRODUCT OF
STERN CHEMICAL CORPORATION
HOME OFFICE AND LABORATORY: 318/326-4333
2726 DeSIARD STREET, MONROE, LOUISIANA 71201
NEW ORLEANS • BATON ROUGE • SHREVEPORT

CAUTION

**CAUTION DO NOT USE AROUND HOME, RECREATION AREAS, OR SIMILAR AREAS
CAUTION HARMFUL IF SWALLOWED AVOID CONTACT WITH SKIN, EYES, OR CLOTHING**

Avoid application to vegetables, flowering plants, shrubby trees, or other desirable type of plants. Do not apply to newly seeded pastures. Beware of possible injury to bent grass and St. Augustine grass pastures. Also beware of possible injury to clover. Do not contaminate waters used for irrigation or domestic purposes.

GRAZING LIMITATIONS

a. Do not graze dairy animals on treated areas within 6 weeks after application.
b. Do not graze meat animals on treated areas within 2 weeks of slaughter.
This product is toxic to fish. Keep out of lakes, streams or ponds. Do not contaminate water by cleaning of equipment, or disposal of wastes.

Do not reuse empty container. Wash thoroughly with water and detergent. Discard in a safe place.

Do not reuse empty drum. Return to drum reconditioner or destroy by perforating or crushing and burying in a safe place.
CAUTION: Do not dispose of poison ivy, by burning after it has been killed. Smoke from the burning vine is very poisonous on contact with the skin.

Before using, consult agricultural authorities in your State. Do not store near fertilizers, seeds, insecticides or fungicides. Avoid spray drift to susceptible plants as this product may injure cotton, beans, peas, ornamentals, etc. (Coarse sprays are less likely to drift). Thoroughly clean spray equipment with a suitable chemical cleaner before using for other purposes. Vapors from this product may injure susceptible plants in the immediate vicinity.
