

DESCRIPTION:

STERN FOG 10 is designed for use as an ultra-fine fog for reduction of flies, mosquitoes and gnats. STERN FOG 10 compounds is for use in standard fogging equipment which handles ultra-fine insecticides, such as the DYNA FOG machine.

DIRECTIONS:

MOSQUITO FOGGING: With Dynafog machines, the rate of application should be 40 gal/hr. with the machine moving 5 mph covering a 300 ft. swath width. This is equivalent to 22 gal. insecticide/acre. Fog should be applied in early morning or late evening hours with zero wind to avoid drift.

WET SPRAYING (INDOORS): Use STERN FOG 10 for control of flies, mosquitoes, wasps, gnats, ants, silverfish, spiders and Brown Dog Ticks. Using STERN FOG 10 as a coarse spray, apply thoroughly to infested cracks, baseboards, corners, around window frames, door frames, openings around water pipes, and other areas frequented by these pests. Application should be repeated as necessary to maintain effective control. Do not apply to those areas which will be contacted by children.

NOTE: Do not reuse empty container. Wash thoroughly with water and detergent. Discard in a safe place. Do not reuse empty drum. Return to drum reconditioner or destroy by perforating or crushing and burying in a safe place.
