

DIRECTIONS:

Microban W.B. Spray, Formula X-580 should be applied with hand or power-operated sprayers to areas where insects, disease-causing bacteria, and mold and mildew causing fungi usually thrive.

Clean surfaces first, and spray areas until thoroughly moist, giving special attention to cracks and crevices. Allow ten to twenty minutes for drying. It is not necessary to wipe the sprayed surface. Microban will not stain those materials not stained by water. It is non-flammable.

Direct and repeat spraying of ants, roaches, bedbugs, silverfish, and other harmful insects, and the cracks, crevices, and hidden surfaces where they hide, are necessary for control. Repeat spraying every 28 days or as necessary to maintain control.

Microban Formula X-580 Spray Ammonium Phenate Complex when used as directed is effective in decontaminating bedding, mattresses, upholstered furniture, and in storage areas to control mold, mildew, germs, fungus, and insects wherever they are a problem.

Active Ingredients 36.38%	
Isopropyl Alcohol	25.00%
Parachlorophenol	
as p-chlorophenyl	
Dimethyl Benzyl Ammonium Chloride	0.19%
Petroleum Distillate	0.41%
N-Octyl Bicycloheptene	
Dicarboxamide	0.40%
o-Phenylphenol	0.08%
Piperonyl Butoxide	
*(Technical)	0.20%
Pyrethrin	0.10%
*Consists of 0.18%	
(Butylcarbitol) (6-Pro	
pylpyrrolonyl) ether and	
0.04% related compounds	
Inert Ingredients 73.62%	
Water	
Isopropylphenonopolylth	
oxyethanol	
Propylene Glycol	
Facemial Oil

Shake well before and during use

Microban W. B. Liquid Spray, Ammonium Phenate Complex, Formula X-580, when sprayed on surfaces, is a bactericide against most gram positive bacteria including staph and strep and influenza virus and against many gram negative germs. Microban Formula X-580 is also active in the control of mold and mildew-causing fungi on empty hampers, garbage and waste receptacles, compactors, and in animal areas against odors resulting from bacteria and fungal organisms and against bugs, ants, insects around the area sprayed.

This formulation will not damage metal, plastic, tile, wood, painted or varnished surfaces, leather, or any fabric not stained by water. It dries rapidly and leaves a residual coating against insects, bacteria, and fungi.

Microban W. B. Spray, Formula X-580 has many uses in the home, in boats, recreational campers, lockers, garages, cellars, storage areas, attics, wherever musty odors, germs, fungi and insects are normally found.

WARNING

Avoid inhalation of spray. Avoid contact with skin or eyes. In case of contact, flush with plenty of water. If irritation persists, get medical attention.

Foods should be covered or removed during treatment. Food processing surfaces should be covered or thoroughly cleaned before using. When using the product in these areas, apply only when the facility is not in operation.

This product is toxic to fish. Do not contaminate by disposal of wastes or cleaning of equipment in lakes, streams or ponds. Rinse empty containers thoroughly with water before discarding.

Freezing point 24° F.
