RE: Label Amendment Dated April 20, 2010
Product Name: Sno-Glo Bleach
EPA Registration Number: 6785-20002

Dear Sir:

The Agency has reviewed your application submitted in accordance with continuing registration under the Federal Insecticide Fungicide and Rodenticide Act (FIFRA), as amended, and determined the action acceptable with the following conditions:

- Under Hazards to Humans, change "Wash after handling" to "Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet."
- Under Environmental Hazards, change "or other waters" to "or other public waters."
- On page 2, the box of supplemental uses must be changed to read "For the following uses, contact your supplier for descriptive information and use directions." Since this is a simplified registration, only the use directions in the Sodium and Calcium Hypochlorite RED are approved. You must provide a copy of this descriptive information for our files.
- In the box of uses, change wood roofs and sidings to sealed wood roofs and sidings.

In summary, your request to move product specific use directions to a consolidated technical bulletin and update your storage and disposal directions in accordance with PR Notice 2007-4 is approved.

A stamped copy of the labeling accepted with conditions is enclosed. Submit one copy of your final printed labeling before distributing or selling the product bearing the revised labeling. Should you have any questions or comments concerning this letter, please call Tom Luminello at (703) 308-8075.

Sincerely,

A handwritten signature in black ink, appearing to read "Wanda Y. Henson".

Wanda Y. Henson
Acting Product Manager 32
Regulatory Management Branch II
Antimicrobials Division (7510P)

DIRECTIONS FOR USE

It is a violation of federal law to use this product in a manner inconsistent with its labeling.

Note: This product degrades with age. Use a chlorine test kit to increase dosage, as necessary, to obtain the required level of chlorine.

STORAGE AND DISPOSAL

PESTICIDE STORAGE: Store this product in a cool dry area, away from direct sunlight and heat to avoid deterioration. Do not contaminate food or feed by storage, disposal, or cleaning of equipment. In case of spill, flood areas with large quantities of water. Product or rinsates that cannot be used should be diluted with water before disposal in a sanitary sewer.

PESTICIDE DISPOSAL: Pesticide wastes may be hazardous. Improper disposal of excess pesticide, spray mixture or rinsate is a violation of Federal Law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste Representative at the nearest EPA Regional Office for guidance.

CONTAINER HANDLING:

REFILLABLE CONTAINER: Refill this container with pesticide only. Do not reuse this container for any other purpose. Cleaning the container before refilling is the responsibility of the refiller. Cleaning the container according to label instructions before final disposal is the responsibility of the person disposing of the container. If disposing refillable container, offer for recycling if available or place in trash collection.

CONTAINER CLEANING: Triple rinse or pressure rinse container (or equivalent) promptly after emptying.

Triple Rinse: If container has a capacity greater than five (5) gallons, triple rinse as follows: Empty remaining contents into application equipment or a mix tank. Fill the container 1/4 full with water. Replace and tighten closures. Tip container on its side and roll it back and forth, ensuring at least one complete revolution, for 30 seconds. Stand the container on its end and tip it back and forth several times. Turn the container over onto its other end and tip it back and forth several times. Empty the rinsate into the application equipment or a mix tank or store rinsate for later use or disposal. Repeat this procedure two more times.

If container has a capacity of five (5) gallons or less, triple rinse as follows: Empty the remaining contents into application equipment or a mix tank and drain for 10 seconds after the flow begins to drip. Fill the container 1/4 full with water and recap. Shake for 10 seconds. Pour rinsate into application equipment or a mix tank or store rinsate for later use or disposal. Drain for 10 seconds after the flow begins to drip. Repeat this procedure two more times.

Pressure Rinse: Pressure rinse as follows: Empty the remaining contents into application equipment or mix tank and continue to drain for 10 seconds after the flow begins to drip. Hold container upside down over application equipment or mix tank or collect rinsate for later use or disposal. Insert pressure rinsing nozzle in the side of the container, and rinse at about 40 psi for at least 30 seconds. Drain for 10 seconds after the flow begins to drip.

SNO-GLO BLEACH

BLEACHES AND DISINFECTS

Active Ingredient - Sodium Hypochlorite	10%
Other Ingredients	90%
Total	100%
Available Chlorine 5.5%	

KEEP OUT OF REACH OF CHILDREN

DANGER

FIRST AID

Call a poison control center or doctor immediately for treatment advice.

"If In Eyes", Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. **"If on Skin or Clothing"**, Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. **"If Inhaled"**, Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth - to mouth, if possible. **"If Swallowed"**, Call poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by the poison control center or doctor. Do not give anything by mouth to an unconscious person.

PRECAUTIONARY STATEMENTS HAZARDS TO HUMANS AND DOMESTIC ANIMALS

DANGER: Corrosive. May cause severe skin irritation or chemical burns to broken skin. Causes eye damage. Do not get in eyes, on skin and clothing. Wear goggles or safety glasses and rubber gloves when handling this product. Wash after handling. Avoid breathing vapors. Remove and wash contaminated clothing before reuse. Vacate poorly ventilated areas as soon as possible. Do not reenter until strong odors have dissipated.

ENVIRONMENTAL HAZARDS

This pesticide is toxic to fish and aquatic organisms. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans, or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge.

Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance contact your state board or regional office of the EPA.

PHYSICAL OR CHEMICAL HAZARDS

STRONG OXIDIZING AGENT: Mix only with water according to label directions. Mixing this product with chemicals (e.g. ammonia, acids, detergents, etc.) or organic matter (e.g. urine, feces, etc.) will release chlorine gas which is irritating to eyes, lungs and mucous membranes.

For the following supplemental uses, contact your supplier for descriptive information and use directions.

1. Sanitization of nonporous food contact surfaces.
2. Sanitization of nonporous non food contact surfaces.
3. Sanitization of porous food contact surfaces.
4. Sanitization of porous and non food contact surfaces.
5. Disinfection of nonporous non food contact surfaces.
6. Cooling tower evaporative condenser water.
7. Public water systems.
8. Swimming pool.
9. Sewage and wastewater treatment.
10. Agricultural uses.
11. Laundry sanitizers.
12. Disinfection of drinking water (emergency, public, individual systems).
13. Spas, hot tubs, immersion tanks, etc.
14. Aquacultural uses.
15. Pulp and paper mill process water systems.
16. Emergency disinfection after main breaks.
17. Emergency disinfection after droughts.
18. Emergency disinfection after fires.
19. Emergency disinfection after floods.
20. Sewage and Wastewater Effluent Treatment.
21. Food Premises
22. Sanitization of Dialysis Machines
23. Asphalt or Wood Roofs and Sidings
24. Boat Bottoms
25. Artificial Sand Beaches
