

[6811-24]

REG. NO. _____

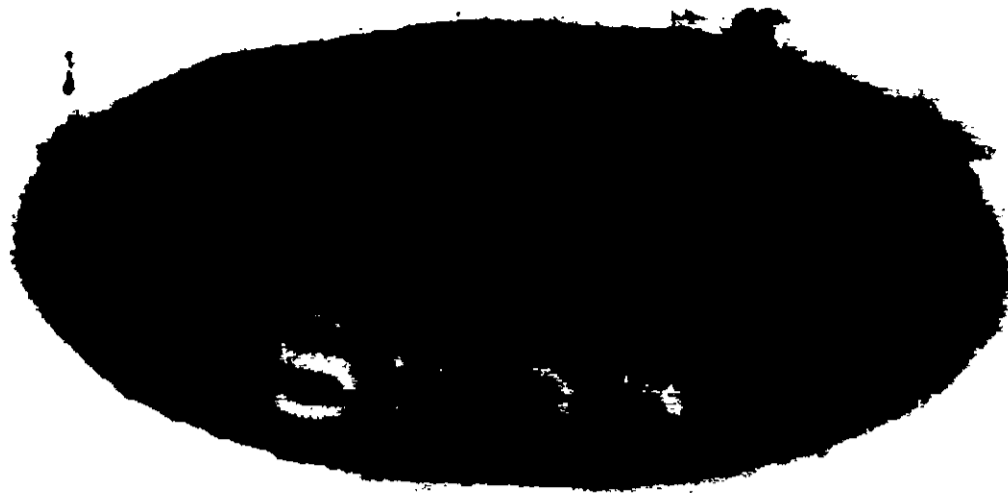

... insecticide spray designed
... for insecticides. Spray
... to kill other small flying
... spray surfaces to kill certain
... insects. Follow direc-
... carefully for best results.

**FLIES, WATERBUGS, SILVERFISH, CRICKETS,
SPIDERS, TICKS, CENTIPEDES and certain
biting insects:** Apply on
infested areas and on surfaces, driving
insects out for contact with the killing
mist. When possible, spray all cracks,
crevices, under cabinets, sinks, around
drains, floors, and any place where
insects crawl, nest or breed. Repeat
weekly or as required to control.

ANTS: Spray along ant trail, into
nests, on porch landings, building
supports, foundations, or the sides of
the house up to window level. Spray
into all openings from which ants
emerge. Repeat as required.

**FLIES, MOSQUITOES, GNATS, WASPS, and
biting insects:** Spray mist into
corners, under furniture and upward
