

DELTA

DELTA HERBICIDAL OIL NO. 43

ACTIVE INGREDIENT: 100% Petroleum Naphtha. Tank Car net weight equals number of gallons times 6.6 lbs./gal. Bulk shipment for Herbicidal use.

FLAMMABILITY: Minimum flash 100°F.

RECOMMENDED USAGE: When the cotton is 1-1/2 to 2" high, post emergence spray for weed control may be started at the rate of about 5 gals./acre, not more frequently than five-day intervals. A total of 3 such applications should be sufficient. Examine cotton plants carefully and if any evidence of burns, scars, lesions or other damage is noted, discontinue spraying DELTA HERBICIDAL OIL No. 43 until the damaged parts have been healed.

Due to soil conditions, methods of application, weed conditions and other factors beyond our control no responsibility is assumed by Delta Refining Company for failure or damage to crops.

CAUTION: VOLATILE. Avoid prolonged or repeated contact with skin or breathing of the vapors. May be flammable. Do not use or store near open flame Use only when there is no hazard of drift.
