## INSECTICIDE, CHLORDANE 5 PER CENT DUST

	Per cent by weight
Active Ingredients:	
Technical chlordane <sup>1</sup>	5
Inert Ingredients	95
	<hr/>
TOTAL	100

<sup>1</sup>Equivalent to 3 per cent OCTACHLORO-4, 7-METHANOTETRA-HYDROINDANE and 2 per cent of related compounds.

### CAUTION

KEEP OUT OF REACH OF CHILDREN  
AVOID INHALATION, AVOID CONTAMINATION OF  
FEED AND FOODSTUFFS

### DIRECTIONS FOR USE

For indoor control of cockroaches and ants: Under structures, apply with suitable applicator to infested cracks, surfaces, and other areas where insects rest, run, or hide. Ant trails and areas around door sills and window frames where these pests enter should also be treated. Use only in areas inaccessible to children and pets.

Apply only a light covering of dust and take precautions to see that excessive dust is not applied where it will be blown into the air and inhaled by humans or animals. Repeat applications are required in all cases.

Suitable masks must be worn by personnel doing this work, and others must be evacuated. Contamination of foodstuffs and feed must be avoided. Animals and pets if present in the area to be dusted must be removed for their safety.

Outdoor control of vegetative pests along fence rows and other non-food and non-feed crop areas. (Mole crickets, wireworms, ants, white grubs, white fringed beetles, grasshoppers). Apply only to infested areas, at rates of 100 pounds of the 5% chlordane dust per acre. Consult State Extension Service Specialist for appropriate recommendations. Take precautions as indicated above.

\* This product is toxic to fish and wildlife. Keep out of lakes, streams, or ponds. Birds feeding on treated areas may be killed. Apply this product only as specified on this label.
