

Instructions: This is a specimen label. You may use this format in developing your own label. Substitute your product's name every place you see "LONZA Formulation 217". On the center panel place your own company name and address where you see "Lonza inc. . . etc." Substitute your EPA File No. for our "6836-39" registration number.

LONZA FORMULATION 217 is a disinfectant bathroom bowl cleaner designed for hospital use. This disinfectant toilet bowl cleaner is especially formulated to kill many germs commonly found in hospital, industrial and household environments. LONZA FORMULATION 217 is designed for use in toilet bowls and urinals.

LONZA FORMULATION 217 contains an acid compatible detergent system that removes resistant stains and increases its disinfectant action.

When used as directed, LONZA FORMULATION 217 cleans, disinfects, and deodorizes in one easy step.

100.000%

Contains no phosphate compounds.

KEEP OUT OF REACH OF CHILDREN

DANGER

Statement of Practical Treatment

If swallowed, call a physician immediately. Drink a teaspoonful or more of milk of magnesia or a cup of soapy water followed with milk or raw egg whites.

Eye Contact: Wash with water for 15 minutes. Get prompt medical attention.

Skin Contact: Wipe off the acid gently, immediately flood the surface with water, using soap freely, then cover with moist magnesia or baking soda.

Directions for Use

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

Flush toilet. Add 1½ fluid oz. (3 tablespoons) directly to water in toilet bowl (¾ gallon). Brush to cover all bowl surfaces including under the rim. Flush toilet.

Treated surface must remain wet for ten minutes.

For heavily soiled areas, a preliminary cleaning may be required.

For badly stained bowls, repeat above treatment using 2 to 4 fluid ounces of LONZA FORMULATION 217.

For use in urinals, add 1½ fluid oz. (3 tablespoons) to ¾ gallon of water. Apply by brush to all urinal surfaces. Treated surfaces must remain wet for 10 minutes. Flush.

The efficacy of LONZA FORMULATION 217 (in toilet bowls and urinals) has been evaluated in the presence of 5% serum and found to be effective against the following organisms by the AOAC Use-Dilution test:

- Pseudomonas aeruginosa
- Staphylococcus aureus
- Salmonella choleraesuis

The cationic detergent system of LONZA FORMULATION 217 inhibits the acid corrosion of metal parts found around toilet bowls and urinals.
