GENERAL CLASSIFICATION

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

LONZA FORMULATION S-36 is a proven 'one-step' cleaner deinfectant --senikizer -- fungicide -- mildenetat -- virucide in the presence of moderate amounts of organic soil.

Apply LONZA FORMULATION 5-36 to walls, floors and other hard (inanimate) non-porous surfaces such as lables, chairs, countertops, sinks and bedfirames with a cloth, mop or mechanical spray device so as to thoroughly wet surfaces. For heavily solled areas, a preliminary cleaning is required. Prepare a fresh solution delily or when use solution becomes visibly dirty. Disinfection —to disinfect hard, non-porous surfaces, frected surfaces must remain wet for 10 minutes.

For heapitals and mursing homes, add 2 ex. per gallon of meter. The activity of LONZA FORMULATION 8-36 has been evaluated in the presence of 5th serum by the AOAT distance and found to be effective against a broad spectrum of gram negative and gram positive organisms as presented by:

Preudomones seruginose Staphytococcus aureus Samoneta cholerassuls Escherichis coli Serratis mercescens Nobeleta preumonias

Enserobacter aerogenes Salmonella schottmusteri Straptococcus isecalis Shigella dysenteriae Brevibacterium ammoniage

Pseudomonas cepacia

For schools, non-medical institutional and Industrial uses: At 1 oz. per gellon of weter, LONZA FORMULATION 6-38 delivers cleaning and germicidal effectiveness. It is effective against Staphylococcus aureus. Salmonella choleressus and Escherichia coli. The same ACAC tests used above to confirm suitable performance for hospitals were used. Fungicidal Performance

LONZA FORMULATION 5-36 at 1 oz. per gallon is an effective fungicide against Trichophyton mentagrophytes (the athleses lost fungue) when used on surfaces in areas such as locker rooms, dreesing rooms, shower and bath areas, sucrise facilities.

Mold and Mildow Control

At 1 oz./gallon, LONZA FORMULATION 8-36 will effectively inhibit the growth of mold and middew and the odors caused by them when applied to hard, non-porous surfaces (as indicated in general instructions above). Allow to dry on surface and repeat when mildew growth returns.

Virucidal Performance

"At 1 oz pergelon use level LONZA FORMULATION 8-36 was avaluated in the presence of 5% serunt and found to be effective against the following viruses: influenza Affazzi, lettres simplex Type 1 and Vaccinia on inanimate" hard nosporous environmental surfaces.

Sentiting-Non-Food Contect Surfaces (such as Roors, wells, tables, etc.). At his oz-jusion use-level, LONGZA POPARLILATION S-S8 is an effective sentitizer regeinst Stephylococcus aureus and Klobelella pneumonies in the presence of 6% serum on porous and non-porous environmental surfaces. Tressed surfaces must remain well for 80 seconds.
