

Regular, effective cleaning and sanitizing of equipment, utensils, and work or dining surfaces minimize the probability of contaminating food during preparation, storage or service, and the transmission of disease organisms to consumers and employees. Effective cleaning will remove soil and prevent the accumulation of food residues which may decompose or support the rapid development of food poisoning organisms or toxins. Application of effective sanitizing procedures destroys these disease organisms which may be present on equipment and utensils after cleaning, and prevents the transfer of such organisms to consumers or employees, either directly through tableware such as glasses, cups and flatware or indirectly through the food.

To prevent cross-contamination, kitchenware and food-contact surfaces of equipment shall be washed, rinsed, and sanitized after each use and following any interruption of operation during which cross-contamination may have occurred.

Where equipment and utensils are used for the preparation of potentially hazardous foods on a continuous or production-line basis, utensils and the food-contact surfaces of equipment shall be washed, rinsed, and sanitized at intervals throughout the day on a schedule based on food temperature, type of food, and amount of food particle accumulation.

Precautionary Statements Hazards to Humans and Domestic Animals

DANGER

Keep out of reach of children. Corrosive. Causes eye and skin irritation. Do not get in eyes, on skin, or on clothing. Wear goggles or face shield and rubber gloves when handling. Harmful if swallowed. Do not breathe spray mist. Avoid contamination of food.

STORAGE AND DISPOSAL

- Do not contaminate water, food, or feed by storage or disposal.
- Open dumping is prohibited.
- Do not reuse empty container.

Pesticide Disposal

Pesticide spray mixture or rinse water that cannot be used according to label instructions must be disposed of according to Federal, State or Local procedures.

Container Disposal

Triple rinse (or equivalent). Then offer for recycling or reconditioning, or dispose of in a sanitary landfill, or by incineration if allowed by State and Local authorities.

General

Consult Federal, State or Local disposal authorities for approved alternative procedures.

203M SANITIZER **Sanitizer-Deodorizer** **With Organic Soil Tolerance** **Institutional, Industrial, School** **Dairy and Other Food Use** **For Food Handling and Processing Areas,** **Restaurants and Dairies**

Active Ingredients

Octyl decyl dimethyl ammonium chloride	2.250%
Didecyl dimethyl ammonium chloride	1.125%
Dioctyl dimethyl ammonium chloride	1.125%
Alkyl (C ₁₈ .50%; C ₁₂ .40%; C ₁₆ .10%) dimethyl benzyl ammonium chloride	3.800%

Inert Ingredients

100.000%

KEEP OUT OF REACH OF CHILDREN

DANGER

Statement of Practical Treatment

In case of contact, immediately flush eyes or skin with plenty of water for at least 15 minutes. For eyes, call a physician. Remove and wash contaminated clothing before rewear.

If swallowed, drink promptly a large quantity of milk, egg whites, gelatin solution; or if these are not available, drink large quantities of water. Avoid alcohol. Call a physician immediately.

NOTE TO PHYSICIAN: Probably mucosal damage may contraindicate the use of gastric lavage. Measures against circulatory shock, respiratory depression, and convulsion may be needed.

in EPA Letter dated:

OCT 15 1982

Under the Federal Insecticide, Fungicide, and Rodenticide Act as amended for the pesticide registered under EPA Reg. No. 6836-89

Directions for Use General Classification

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

Sanitizing of Food Processing Equipment and Other Hard Surfaces in Food Contact Locations. For sanitizing food processing equipment, dairy equipment, food utensils, dishes, silverware, glassware, sink tops, countertops, refrigerated storage and display equipment and other hard non-porous surfaces, the potable water rinse is required.

Wash and rinse all articles thoroughly, then apply a solution of 1 oz. 203M Sanitizer in 4 gallons of water. (130ppm active). Surfaces should remain wet for at least one minute followed by adequate draining and air drying. Fresh solution should be prepared daily or when one solution becomes visibly dirty. For mechanical application, one solution may not be reused for sanitizing applications.

Apply to sink tops, countertops, refrigerated storage and display equipment and other stationary hard surfaces by cloth or brush or mechanical spray device. No potable water rinse is required.

Dishes, silverware, glassware, cooking utensils and other similar food processing equipment can be sanitized by immersion in a 1oz/4 gallon solution of 203M Sanitizer. No potable water rinse is required.

At 1oz/4gallons 203M Sanitizer fulfills the criteria of Appendix F of the Grade "A" Pasteurized Milk Ordinance 1978 Recommendations of the U.S. Public Health Service in waters up to 200 ppm of hardness calculated as CaCO₃ when evaluated by the 203M Sanitizer and Buffering Sanitizer Method against *Escherichia coli* and *Staphylococcus aureus*.

9.3. Public Health Sanitation-Food Service Sanitation Recommendations

Cleaning and Sanitizing

Equipment and utensils shall be thoroughly pre-flushed or pre-rinsed, and when necessary, pre-scrubbed to remove gross food particles and soil.

- 1) Thoroughly wash equipment and utensils in a hot detergent solution.
- 2) Rinse utensils and equipment thoroughly with clean water.
- 3) Sanitize equipment and utensils by immersion in a 1oz/4 gallon solution of 203M Sanitizer (130 ppm active) for at least 60 seconds at a temperature of 15°F. This dilution is equivalent to a solution containing 50 ppm available chlorine.
- 4) For equipment and utensils too large to sanitize by immersion, apply a 1oz/2 gal. solution of 203M Sanitizer (260 ppm active) by rinsing, spraying or soaking until thoroughly wetted.
- 5) Allow sanitized surfaces to drain and air dry. Do not rinse.

203M Sanitizer meets the requirements of 21 CFR 129.1610

U.S. ENVIRONMENTAL PROTECTION AGENCY OFFICE OF PESTICIDES PROGRAMS REGISTRATION DIVISION (PM-167) WASHINGTON, D.C. 20460	EPA REGISTRATION NO. 6836-89	DATE OF ISSUANCE
	TERM OF ISSUANCE OCT 15 1982	
	NAME OF PESTICIDE PRODUCT 205 M Sanitizer	

NOTICE OF PESTICIDE: ☐ REGISTRATION ☒ REREISTRATION
 (Under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended)

NAME AND ADDRESS OF REGISTRANT (Include ZIP code)

LORAN, Inc.
 22-18 Route 208
 Fairlawn, NJ 07410

NOTE: Changes in labeling formula differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above U.S. EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby Registered/Reregistered under the Federal Insecticide, Fungicide, and Rodenticide Act.

A copy of the labeling accepted in connection with this Registration/Reregistration is returned herewith.

Registration is in no way to be construed as an endorsement or approval of this product by this Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is conditionally registered in accordance with FIFRA sec. 3(c)(7)(A) provided that you:

1. Submit and/or cite all data required for registration/reregistration of your product under FIFRA sec. 3(c)(5) when the Agency requires all registrants of similar products to submit such data.
2. Make the labeling changes listed below before you release the product for shipment:
 - a. Add the phrase "EPA Registration No. 6836-89."
 - b. For the label size submitted, the STORAGE AND DISPOSAL heading and the Child Hazard warning "KEEP OUT OF REACH OF CHILDREN" would require a 12 point type size minimum and the signal word DANGER (front panel only) would require an 18 point type size minimum.
 - c. Revise the statement:

Causes eye and skin irritation

to read:

Causes eye damage and skin irritation.

- d. Review the Pesticide Disposal Statement of the Storage and Disposal Section to read:

PESTICIDE DISPOSAL

Pesticide, spray mixture, or rinse water that cannot be used according to label instructions must be disposed of according to Federal or approved State procedures under Subtitle C of the Resource Conservation and Recovery Act.

- e. Review the Container Disposal Statement of the Storage and Disposal Section to read:

CONTAINER DISPOSAL

Triple rinse (or equivalent). Then offer for recycling or reconditioning, or dispose of in a sanitary landfill, or by incineration if allowed by state and local authorities.

- f. Delete the statement "... potentially hazardous. . ." left panel. Ref: As per phone conversation between the Agency and Mr. Gottlieb on October 1, 1982.

3. Submit five (5) copies of your final printed labeling before you release the product for shipment. Refer to the A-79 Enclosure for a further description of final printed labeling.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA sec. 6(e). Your release for shipment of the product constitutes acceptance of these conditions.

A stamped copy of the label is enclosed for your records.
