Dear Ms. Holcombe:

Subject: Notification per Pesticide Registration Notice 2007-4

The Agency is in receipt of your Application for Pesticide Notification under Pesticide Registration Notice (PRN) 2007-4, dated February 16, 2010, for Lonza META Metaldehyde Technical Molluscicide, EPA Registration Number 6836-107.

The Registration Division (RD) has conducted a review of this request for applicability under PRN 2007-4, and finds that the label changes requested do fall within the scope of PRN 2007-4. The label has been date-stamped "Notification" and will be placed in our records.

Please be reminded that 40 CFR Part 156.140(a)(4) requires that a batch code, lot number, or other code identifying the batch of the pesticide distributed and sold be placed on non-refillable containers. The code may appear either on the label or durably marked on the container itself, and can be added by non-notification per PRN 98-10.

If you have any questions, please contact me directly at 703-308-8735 or email me at [chao.julie@epa.gov](mailto:chao.julie@epa.gov).

Sincerely,
