

Cross-contamination is of major housekeeping concern not only in hospitals, but in schools, institutions and industry. LONZA FORMULATION 70-12F is formulated for this problem area. It both cleans and disinfects effectively and is virucidal when used as directed. Its hard surface disinfecting action will reduce the hazard or cross-contamination from environmental surfaces.

LONZA FORMULATION 70-12F is an effective one-step sanitizer-cleaner for use on food contact, as well as non-food contact surfaces.

When used as directed, LONZA FORMULATION 70-12F will deodorize surfaces in toilet areas, behind and under sinks and counters, garbage cans and garbage storage areas and will inhibit the growth of mold and mildew and their odors when used as directed.
