SUBJECT: Lonza, Inc.
Lonza Disinfectant Wipes (EPA Reg. No. 6836-313)
Notification of Minor Label Changes per PR Notice 98-10

Dear Ms. Noble:

On behalf Lonza, Inc., I am submitting an Application for Notification for **Lonza Disinfectant Wipes (EPA Reg. No. 6836-313)** pursuant to the provisions of PR Notice 98-10.

The purpose of this notification is to add optional non-FIFRA marketing statements to the currently approved product label. The proposed statements are in compliance with the criteria for the addition of non-FIFRA related label elements per Section IV(F)(1) of PR Notice 98-10. These statements concern only non-pesticidal effectiveness and qualities related to cleaning, odor elimination, product fragrance (scent) and physical characteristics of the wipe material.

Please note that the proposed language related to odor elimination is not related to pesticidal activity. The components of the fragrance chemically bind with malodor components to neutralize and block any resulting smells. Some examples of malodors eliminated by the fragrance chemicals through the use of the wipe are those associated with fish and bacon grease.

Should the Agency have any issues with the proposed label language during the course of the review process, I would appreciate receiving a telephone call or e-mail message to discuss the issues. Lonza is willing to cooperate with the Agency toward achieving a mutually agreeable label for **Lonza Disinfectant Wipes** through the Notification process. If you would like to contact me about any of the new language, my telephone number is 202-393-3903 x 11 and my e-mail address is wmccombie@lewisharrison.com.

Enclosed please find the following documents in support of this Notification:

- 1) Application for Pesticide Notification, which includes a signed statement certifying compliance with PR Notice 98-10;
- 2) One (1) copy of the proposed product label, with changes highlighted in yellow; and,
- 3) Two (2) copies of the proposed product label.
