SUBJECT: Lonza Disinfectant Wipes
EPA Registration Number: 6836-313
Application Date: October 21, 2011
Receipt Date: October 24, 2011

Dear Ms. Holcombe:

The following amendment, submitted in connection with registration under the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended, is acceptable subject to the conditions listed below:

1) There are a number of instances on this label where claims are made for effectiveness against flu viruses without reference to where this product is effective against flu. These statements are considered to be potentially false or misleading as each implies this product will kill the flu virus anywhere (porous surfaces, in the air etc.) All such instances must be foot noted to indicate that the claim is for treatment of hard non-porous surfaces. Use the foot note 9 "On Hard Nonporous Surfaces" on page 7 to clarify bullets #11 and 12 on the same page. Also add a similar foot note with the same language to bullets #12 and 14 on page 8.

2) Revise page 13 by changing the last statement to read as follows: "Lonza Disinfecting Wipes have been formulated to aid in the reduction cross-contamination *on treated surfaces* in the home..." by adding the phrase "on treated surfaces."

3) Revise bullets #7 in the antibacterial section, #1 and 4 in the sanitizing section on page 8 by placing the complete name of each organism just prior to each abbreviation as follows: Staphylococcus aureus [Staph], Klebsiella pneumonia [Klebsiella], and Campylobacter jejuni [Campylobacter]. You may not list the abbreviations in the absence of the full name of the organism using the genus and species.

4) This product may not be used to treat interior surfaces of appliances. Thus the word "exteriors" must be added to the surface "Appliances" on page 16.
