

U.S. ENVIRONMENTAL PROTECTION AGENCY

Office of Pesticide Programs  
Antimicrobials Division (7510P)  
1200 Pennsylvania Ave., N.W.  
Washington, D.C. 20460

EPA Reg. Number:

6836-455

Date of Issuance:

11/30/21

NOTICE OF PESTICIDE:

☒ Registration  
☐ Reregistration  
(under FIFRA, as amended)

Term of Issuance:

Unconditional

Name of Pesticide Product:

NUGEN® Citric-Guard Wipes

Name and Address of Registrant (include ZIP Code):

Jennifer DePietro  
Regulatory Assurance Specialist  
Lonza, LLC  
412 Mount Kemble Ave., Suite 200S  
Morristown, NJ 07960

**Note:** Changes in labeling differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Antimicrobials Division prior to use of the label in commerce. In any correspondence on this product always refer to the above EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby registered under the Federal Insecticide, Fungicide and Rodenticide Act (FIFRA).

Registration is in no way to be construed as an endorsement or recommendation of this product by the Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is unconditionally registered in accordance with FIFRA section 3(c)(5) provided that you:

1. Submit and/or cite all data required for registration/reregistration/registration review of your product when the Agency requires all registrants of similar products to submit such data.

Signature of Approving Official:

Heather A. Garvie, Senior Regulatory Advisor  
Regulatory Management Branch II, Antimicrobials Division  
(7510P)

Date:

11/30/21

2. Make the following label changes before you release the product for shipment:

- Revise the EPA Registration Number to read, "EPA Reg. No. 6836-455."

3. Submit one copy of the revised final printed label for the record before you release the product for shipment.

Should you wish to add/retain a reference to the company's website on your label, then please be aware that the website becomes labeling under FIFRA and is subject to review by the Agency. See FIFRA section 2(p)(2). If the website is false or misleading, the product would be misbranded and unlawful to sell or distribute under FIFRA section 12(a)(1)(E). 40 CFR 156.10(a)(5) lists examples of statements EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product's label, claims made on the website may not substantially differ from those claims approved through the registration process, FIFRA section 12(a)(1)(B). Therefore, should the Agency find or if it is brought to our attention that a website contains false or misleading statements or claims substantially differing from the EPA approved registration, the website will be referred to the EPA's Office of Enforcement and Assurance.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6. Your release for shipment of the product constitutes acceptance of these conditions. A stamped copy of the label is enclosed for your records. Please also note that the record for this product currently contains the following CSFs:

- Basic CSF dated 11/18/2021

If you have any questions, please contact Heather Garvie by phone at 202-566-0735, or via email at [garvie.heather@epa.gov](mailto:garvie.heather@epa.gov)

NUGEN® Citric-Guard Wipes

EPA Reg. No. 6836-ULL

EPA Submission 2021-11-18

**PRECAUTIONARY STATEMENTS****HAZARDS TO HUMANS AND DOMESTIC ANIMALS**

**Caution.** Causes moderate eye irritation. Avoid contact with eyes or clothing. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum or using tobacco, or using the toilet.

**FIRST AID**

**IF IN EYES:** Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.

Have the container or label with you when calling a poison control center or doctor, or going for treatment. For general information on product use, etc., call the National Pesticides Information Center (NPIC) at 1-800-858-7378, Monday through Friday, 8 AM to 12 PM PST, or at <http://npic.orst.edu>. You may also contact the poison control center at 1-800-222-1222 for emergency medical treatment information.

*{Note to reviewer: Pages 3-17 are considered optional marketing language. All designators (i.e. asterisks and numbers) used throughout the label may be interchanged as needed on final printed label.}*

*{Note to reviewer: The following claims containing "New" may only be used for a period of six months after EPA's approval of a revised or alternate formula, beginning when the product is first sold or distributed.}*

- Introducing
- Introducing new
- New

- This product contains no [phosphates or] phosphorous [compounds].
- Use by {insert date}
- When used as directed, safe for use around [pets][cats and dogs]

**NUGEN® Citric-Guard Wipes:**

- deodorizes by killing microorganisms [bacteria] that cause offensive odors.
- [improves labor results by] effectively controls [controlling] malodors.
- will disinfect<sup>4</sup>, clean and deodorize surfaces in rest rooms and toilet areas, behind and under sinks and counters, garbage cans and garbage storage areas, and other places where bacterial growth can cause malodors.
- is formulated for use in daily maintenance programs with a balance of detergents and malodor counteractants that deliver effective cleaning, disinfecting and malodor control.
- is a complete, chemically balanced disinfectant
- will not leave grit or soap scum.
- is a [one-step<sup>1</sup>] disinfectant<sup>4</sup> cleaner<sup>1</sup> that is effective against a broad spectrum of bacteria when used as directed.
- is a proven "one-step<sup>1</sup>" disinfectant<sup>4</sup> – cleaner<sup>1</sup> which is effective in the presence of 5% serum contamination.
- is a broad spectrum hospital disinfectant
- is a bathroom cleaner<sup>1</sup>
- kills [kitchen] [bathroom] [household] bacteria<sup>9</sup>.
- kills common household bacteria<sup>9</sup>.
- kills bacteria
- help you accomplish things you never thought a wipe could do
- [wipes] [cloths] [sheets] help you to accomplish things you never thought a wipe could do
- [help] take the hassle out of dispensing disinfecting wipes. The Easy-Glide Lid dispenses wipes one-at-a-time, like a tissue-box, so you get the number of wipes you want with no pinched fingers, [torn wipes], [or] [jammed lids]. Plus they kill bacteria to keep your [family's] home [clean]. Use it on bathroom and kitchen surfaces like countertops, appliances<sup>8</sup>, door handles, light switches, toilets, sinks, and tubs.
- are designed for your toughest tasks. They are [thick and strong] [thicker and stronger] to stand up to [tough] [your toughest] messes, and they have a cloth-like texture for extra scrubbing power. Plus they kill bacteria to [help] keep your [family's] [home] [clean]. Try it [them] on [your] tough [toughest] messes in the kitchen and bathroom, like baked-on grease on your stove [top], sticky messes on your counters, and built-up grime on your bathroom sinks.

Cross-contamination is of major [housekeeping] concern. **NUGEN® Citric-Guard Wipes** have been formulated to aid in the reduction of cross-contamination between treated surfaces in the home, schools, institutions and industry.

**Use NUGEN® Citric-Guard Wipes:**

- in federally inspected Meat & Poultry Plants as a disinfectant on all surfaces<sup>1</sup> in inedible product processing areas, non-processing areas and / or exterior areas.
- as a disinfectant on hard, non-porous surfaces.
- in kitchens, bathrooms and other household areas.
- to clean and disinfect<sup>4</sup> finished floors, sinks and tubs.
- for non-scratch cleaning of showers and tubs, shower doors and curtains, fixtures and exterior toilet bowl surfaces.
- to clean and disinfect<sup>4</sup> non-porous personal [safety] [protection] equipment, protective headgear, hard hats, half mask respirators, full face breathing apparatus, gas masks, goggles, spectacles, face shields, silicone rubber or PVC hearing protectors and vinyl covered ear muffs. Rinse all equipment that comes in contact with skin before reuse with clean warm water [about 120°F], and allow to air dry. [Precaution: Cleaning at 120°F temperature will avoid overheating and distortion of the personal [safety] [protection] equipment that would necessitate replacement.
- to clean and disinfect<sup>4</sup> hard, non-porous surfaces of gym equipment, exercise machines, wrestling mats and gymnastic equipment.

*{Note to Reviewer: These statements for claims against large non-enveloped, and/or enveloped emerging viral pathogens shall not appear on marketed (final print) product labels.}*

#### **EMERGING VIRAL PATHOGEN CLAIMS**

*This product qualifies for emerging viral pathogen claims per the EPA's 'Guidance to Registrants: Process for Making Claims Against Emerging Viral Pathogens not on EPA-Registered Disinfectant Labels' when used in accordance with the appropriate use directions indicated below.*

*This product meets the criteria to make claims against certain emerging viral pathogens from the following viral category[ies]:*

- Enveloped viruses
- Large, non-enveloped viruses

|                                                |                                                                            |
|------------------------------------------------|----------------------------------------------------------------------------|
| For an emerging viral pathogen that is a/an... | ...follow the directions for use for the following organisms on the label: |
| Enveloped virus                                | Rhinovirus Type 37 [ATCC VR-1147, Strain 151-1]                            |
| Large, non-enveloped viruses                   | Rhinovirus Type 37 [ATCC VR-1147, Strain 151-1]                            |

**[NUGEN® Citric-Guard Wipes]** has demonstrated effectiveness against viruses similar to **[name of emerging virus]** on **hard, non-porous surfaces**. Therefore, **[NUGEN® Citric-Guard Wipes]** can be used against **[name of emerging virus]** when used in accordance with the directions for use against **[Rhinovirus]** on **hard, non-porous surfaces**. Refer to the **[CDC or OIE]** website at **[pathogen-specific website address]** for additional information.

OR

**[Name of illness/outbreak]** is caused by **[name of emerging virus]**. **[NUGEN® Citric-Guard Wipes]** kills similar viruses and therefore can be used against **[name of emerging virus]** when used in accordance with the directions for use against **[Rhinovirus]** on **hard, non-porous surfaces**. Refer to the **[CDC or OIE]** website at **[website address]** for additional information.”

*{Note to reviewer: Representative graphic of wipe tub and/or hand pulling out wipe fabric may be added to the label}*

*{For canister}*

**To Open Package:**

Remove cover. Pull up [towelette] [wipe] [cloth] corner from center of roll. Thread through hole in the cover. Replace cover. Open center cap on cover to remove wipe. When not in use [When not using], close center cap [securely] to prevent moisture loss.

*or {For carton or tub}*

**To Open Package:** Open cover and slowly peel back label on pouch. Remove [Pull out] [wipe] [towelette] [cloth] as needed. To retain moisture, reseal [pouch] [bag] by firmly pressing seal back on the [pouch] [bag] and close [carton or tub] cover.

*{For Tub Without Pouch}*

**To Open Package:** Open cover and slowly peel back label. Remove [Pull out] [wipe] [towelette] [cloth] as needed. To retain moisture, [reseal] [reclose] by firmly pressing and close [tub] cover.

*or {For refill, pouch or bag:}*

**To Open Package:**

[Slowly] peel back the label [open seal]. Remove [Pull out] [wipe] [towelette] [cloth] as needed. To retain moisture, reseal [pouch] [bag] by firmly pressing seal back on the [pouch] [bag]

*or*

**To Open Package:**

[Tear] [Cut] open wipe [pouch] [bag] [along dotted line]. Remove canister lid and place [bag with] roll into empty canister. Locate wipe [edge] at center of roll and thread wipe through canister opening [at angle]. Do not push finger through opening. Replace lid on canister and close tightly. Finish pulling wipe through opening. Wipes will feed automatically

*or {for the Travel Pack size}*

**To Open Package:** [Open cover and] slowly peel back label. [Pull out] [Remove] [wipe(s)] [towelette(s)] [cloth(s)] as needed. [Reseal label] to retain moisture [close cover].

*or* **To Open Package:** Open ziplock [Tear edge of pack]. [Pull out] [Remove] [wipes] [towelettes] [cloths] as needed. Reseal ziplock to retain moisture.

*or {for the single cloth or sample pack:}*

**To Open Package:** Tear [pouch] open [at top edge of pouch] [at tear notch] [along dotted line] [where indicated] [edge of pack]. [Pull out] [Remove] [Wipe] [Towelette] [Cloth].

*{For product supplied in a single use pouch with a folded towellete, include the following:}*

Unfold [Wipe] [Towelette] [Cloth]

*or*

**To Open Package:** [Remove package seal[s]] [Remove safety seal[s]] [Flip] Open lid. To remove first wipe [sheet] [wet cloth] [cloth] pull up on wipe and remove wipe through [dispensing] opening [wavy dispensing opening] [orifice]. [The next wipe will pop up automatically]. [Always] close [snap] lid securely between uses [to retain moisture].

*or*

**To Open Package:** [Remove package seal[s]] [Remove safety seal[s]]. Open [Flip open lid [package]]. To start [remove] [first] wipe [sheet] [wet cloth] take the edge of wipe from large opening to the small dispensing opening and pull up. [The next wipe [sheet] [wet cloth] [cloth] will pop up automatically.] [Always] close [snap] lid securely between uses [to retain moisture].

*or*

**To Open Package:** Open Lid. To start wipes, pull up on wipe and move wipe into the small dispensing opening [orifice] [aperture] [hole] [wave] and [pull sheet up to remove wipe] remove wipe. [The next wipe [sheet] [wet cloth] will pop up automatically]. [Always] close [snap] lid securely between uses [to retain moisture].

*or*

**To Open Package:** Flip open[up] the lid[cover][top][cap][dispensing lid]. Thread the wipe [first wipe][cloth][first cloth][sheet] through the dispensing lid and pull up to remove wipe from package. The next wipe [sheet][cloth] pops up automatically. Close lid securely between uses to retain moisture[prevent moisture loss].

*or*

**To Open Package:** Press the three [3] ridges with your thumb and push up on the cap[top][lid] to open[lid]. To remove wipe [sheet] [wet cloth] [cloth] [towelette] pull up on wipe and remove wipe through [dispensing] opening [wavy dispensing opening] [orifice]. [The next wipe will pop up automatically].

*or*

**To Open Package:** Press the three [3] ridges with your thumb and push up on the cap[top][lid] to open[lid]. Thread the wipe [sheet] [wet cloth] [cloth] [towelette] through the dispensing lid and pull up to remove wipe from package. The next wipe will pop[pull] up automatically. [Always] Close [snap] lid securely between uses [to retain moisture].

*or*

**To Open Package:** Press the three [3] ridges with your thumb and push up on the lid to open. Thread the wipe through the dispensing lid and pull up to remove wipe from package. The next wipe will pop up automatically. Close lid securely between uses to retain moisture.

*or*

**To Open Package:** Push the area marked ["Press"] ["Push"] ["Press Here"] ["Push Here"] with your thumb and push up on the lid to open. Thread the wipe through the dispensing lid and pull up to remove wipe from package. The next wipe will pop up automatically. Close lid securely between uses to retain moisture.

*or*

**To Open Package:** Open dispenser and top of bag. Pull out the first wipe approximately 6 to 8 inches from the center of the roll. Place the entire bag inside of dispenser. Thread the wipe through the opening on the dispenser lid. Close the lid to retain moisture.

## DIRECTIONS FOR USE:

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

## TO CLEAN AND DEODORIZE:

Wipe surface<sup>1</sup> with [wipe] [towelette] [cloth] [sheet]. Let air dry. Discard used [wipe] [towelette] [cloth] [sheet] in trash. Do not flush [in toilet].

## [TO CLEAN AND DISINFECT:] {OR} [CLEANING / DISINFECTION / VIRUCIDAL\* DIRECTIONS]:

For the market label, choose one statement from Option Set A and one statement from Option Set B:

### Option Set A

1. Wipe surface<sup>1</sup> with [wipe] [towelette] [cloth] [sheet] until surface is visibly wet.
2. Use enough [wipes] [towelettes] [cloths] [sheets] to visibly wet surfaces<sup>1</sup>.

### Option Set B

1. Surface must remain visibly wet for 5 minutes. *{Note to reviewer: if using reduced contact time for Human Coronavirus and/or Influenza A Virus H1N1 and/or Influenza A Virus H2N3 and/or Measles Virus and/or Respiratory Syncytial Virus and/or SARS-CoV-2, the following sentence will be required:}* **[For [Human Coronavirus] [and] [Influenza A Virus H1N1] [and] [Influenza A Virus H2N3] [and] [Measles Virus] [and] [Respiratory Syncytial Virus] [and] [SARS-CoV-2], treated surfaces must remain visibly wet for 1 minute.]** [Let [permit] surface to [air] dry.]
2. Keep surfaces visibly wet for 5 minutes. *{Note to reviewer: if using reduced contact time for Human Coronavirus and/or Influenza A Virus H1N1 and/or Influenza A Virus H2N3 and/or Measles Virus and/or Respiratory Syncytial Virus and/or SARS-CoV-2, the following sentence will be required:}* **[For [Human Coronavirus] [and] [Influenza A Virus H1N1] [and] [Influenza A Virus H2N3] [and] [Measles Virus] [and] [Respiratory Syncytial Virus] [and] [SARS-CoV-2], treated surfaces must remain visibly wet for 1 minute.]** [Let [permit] surface to [air] dry.]
3. [Use enough [extra] wipes to] keep surfaces visibly wet for 5 minutes. *{Note to reviewer: if using reduced contact time for Human Coronavirus and/or Influenza A Virus H1N1 and/or Influenza A Virus H2N3 and/or Measles Virus and/or Respiratory Syncytial Virus and/or SARS-CoV-2, the following sentence will be required:}* **[For [Human Coronavirus] [and] [Influenza A Virus H1N1] [and] [Influenza A Virus H2N3] [and] [Measles Virus] [and] [Respiratory Syncytial Virus] [and] [SARS-CoV-2], treated surfaces must remain visibly wet for 1 minute.]** [Let [permit] surface to [air] dry.]
4. Allow surface to remain visibly wet for 5 minutes. *{Note to reviewer: if using reduced contact time for Human Coronavirus and/or Influenza A Virus H1N1 and/or Influenza A Virus H2N3 and/or Measles Virus and/or Respiratory Syncytial Virus and/or SARS-CoV-2, the following sentence will be required:}* **[For [Human Coronavirus] [and] [Influenza A Virus H1N1] [and] [Influenza A Virus H2N3] [and] [Measles Virus] [and] [Respiratory Syncytial Virus] [and] [SARS-CoV-2], treated surfaces must remain visibly wet for 1 minute.]**
5. [Wipe surface and] let [surface] [it] remain visibly wet for 5 minutes. *{Note to reviewer: if using reduced contact time for Human Coronavirus and/or Influenza A Virus H1N1 and/or Influenza A Virus H2N3 and/or Measles Virus and/or Respiratory Syncytial Virus and/or SARS-CoV-2, the following sentence will be required:}* **[For [Human Coronavirus] [and] [Influenza A Virus H1N1] [and] [Influenza A Virus H2N3] [and] [Measles Virus] [and] [Respiratory Syncytial Virus] [and] [SARS-CoV-2], treated surfaces must remain visibly wet for 1 minute.]** [Let [permit] surface to [air] dry.]

If surfaces are visibly dirty, clean first with another [wipe] [towelette] [cloth] [sheet] before disinfecting. Discard used [wipe] [towelette] [cloth] [sheet] in trash. Do not flush [in toilet].

Rinse food contact surfaces with clean, potable water after disinfecting. Do not use to disinfect dishes, glassware or utensils.

*Note for reviewer: For labels that list medical premises and metal and / or stainless steel surfaces, one of the following statements must be used:}*

This product is not to be used as a terminal sterilant / high level disinfectant on any surface or instrument that [1] is introduced directly into the human body, either into or in contact with the bloodstream or normally sterile areas of the body, or [2] contacts intact mucous membranes but which does not ordinarily penetrate the blood barrier or otherwise enter normally sterile areas of the body. [This product may be used to preclean or decontaminate critical or semi-critical medical devices prior to sterilization or high level disinfection.]

*{or}*

This product is not for use on medical device surfaces.

#### **SANITIZING [DEODORIZING]:**

To sanitize [deodorize] hard, non-porous, non-food contact surfaces: wipe surface, using enough [wipes] [towelettes] [cloths] to allow treated surface to remain visibly wet for 1 minute [for] [*Escherichia coli*] [ATCC 11229] [and] [*Klebsiella aerogenes*] [ATCC 13048] [and] [*Listeria monocytogenes*] [ATCC 19117] [and] [*Staphylococcus aureus*] [ATCC 6538] [and] [*Salmonella enterica*] [ATCC 10708]. Let surface dry. For visibly soiled surfaces, clean visible dirt [from the surface] first.

#### **DIRECTIONS FOR FLOOR WIPE USE:**

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

**TO CLEAN AND DEODORIZE:** Wipe surface with wipe. Let air dry. Discard used wipe in trash. Do not flush [in toilet].

**TO CLEAN AND DISINFECT:** Pre-clean floor in normal manner. [Attach a premoistened wipe to the mop head using the [velcro] [fasteners] provided.] Thoroughly wet floor with wipes. [Change wipe when soiled.] or [Replace with a fresh wipe once visibly soiled or no longer thoroughly wetting the surface.] Allow surface to remain visibly wet for 5 minutes. Let air dry. On average, one wipe will clean [10] [x] square feet of floor. For a larger area you may need to use more than one wipe. Discard used wipe in trash. Do not flush. Do not use to disinfect dishes, glassware or utensils. Do not use as a diaper wipe or for personal cleansing. Contact manufacturer of wood floors prior to use.

*{Optional representative graphic}*

#### **TO OPEN:**

1. Cut off top of pouch with scissors.
2. Remove wipes from pouch.
3. Place wipes in plastic tub.
4. Discard empty pouch into trash.

#### **TO USE WITH MOP:**

1. Unfold top wipe in tub by pulling sides of the cloth over edges of tub.
2. Place sweeper on head.
3. Wrap wipe around head of sweeper.
4. Push edges of wipe into top of sweeper head.
5. Begin wiping. No rinsing required.
6. After use, remove soiled wipe and discard in trash. Do not flush.

*{Note to reviewer: Nonrefillable container}*

## **STORAGE AND DISPOSAL**

Store in original container in areas inaccessible to children. Keep securely closed. Nonrefillable container. Do not reuse or refill this container. Offer empty container for recycling. If recycling is not available, discard in trash.

*{Note to reviewer: Refillable container}*

## **STORAGE AND DISPOSAL**

Store in original container in areas inaccessible to children. Keep securely closed. Refillable container. [Reuse] [Refill] empty container only with **NUGEN® Citric-Guard Wipes** [refills]. Do not reuse this container except as described. If not refilling, offer empty container for recycling. If recycling is not available, discard in trash.

---

<sup>1</sup> On hard, non-porous, non-food surfaces.

<sup>2</sup> Except on food contact surfaces which require potable water rinse.

<sup>3</sup> For qualified claims insert pathogens from page 15.

**Note to reviewer:** *If a supplemental label is using the “Germs” claim, per the EPA Guidance on use of the term “Germs” in order to make an unqualified “germ” claim the supplemental label must list all 3 of the major classes of organisms: Virus, Bacteria, Fungi and label must bear disinfectant directions. An unqualified claim can appear on front or back panel and does not require a designator. In order to make a qualified “germ” claim the supplemental label must be a broad spectrum disinfectant and list additional claims against one of the following two major classes of organisms: Fungi or Viruses and must bear disinfectant directions. The front panel of the label for a qualified claim must contain a designator (such as \*\*) that refers the user to the qualified statements that describes the type of germ the product is efficacious against.*

<sup>4</sup> When directions for disinfection are followed.

<sup>5</sup> When directions for sanitization are followed.

<sup>6</sup> SARS-Related Coronavirus 2

<sup>7</sup> Rinse toys with clean, potable water after disinfecting.

<sup>8</sup> Allow the surface to adjust to room temperature before disinfection.

<sup>9</sup> Refer to bacteria listed on label.
