

[6837-24]

WIL-FOG

Concentrated Fly and Insect Spray formulated especially for use in fogging machines. Especially designed for use in cafes, restaurants, food storage warehouses, flour mills, bakeries and dairies.

ACTIVE INGREDIENTS:

Petroleum Hydrocarbons	99.268%
* Piperonyl Butoxide Technical	0.650%
Pyrethrins	0.082%
Total Active Ingredients	100.000%

* Consists of 0.52% (butylcarbityl) (6-Propylpiperonyl) ether and 0.13% related compounds.

DIRECTIONS:

For control of flies, mosquitos, gnats and other small flying insects indoors. Follow the directions given by the manufacturer of your particular fogging machine. In general, one gallon of this concentrate will effectively fog approximately 50,000 cubic feet of air space. This is approximately 2.5 ozs. per 1,000 cubic feet of air space. Leave room closed for at least 10 minutes. Sweep up fallen insects. Repeat fogging as often as necessary.

CAUTION: KEEP OUT OF REACH OF CHILDREN. Combustible mixture. Do not use near an open flame. Do not smoke while spraying. Avoid contamination of foods. Use in food processing plants only when plant is not in operation. All food processing surfaces should be covered during treatment or thoroughly cleaned after treatment. Food should be removed or protected during the treatment.

Remove pets and fish bowls from the areas to be treated.

If spilled on skin, wash with soap and water.

Harmful if swallowed.
