

PRECAUTIONARY STATEMENT

WARNING

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

KEEP OUT OF REACH OF CHILDREN

Causes eye and skin irritation. Do not get in eyes, on skin, or on clothing. Harmful if swallowed. Avoid contamination of food.

STATEMENT OF PRACTICAL TREATMENT

In case of contact, immediately flush eyes or skin with plenty of water for at least 15 minutes. For eyes, call a physician. Remove and wash all contaminated clothing before reuse. If swallowed, drink milk, egg whites, gelatin solution or if these are not available, drink large quantities of water. Call a physician.

NOTE TO PHYSICIAN

Probable mucosal damage may contraindicate the use of gastric lavage. Measures against circulatory shock, respiratory depression and convulsion may be needed.

ENVIRONMENTAL HAZARDS

This pesticide is toxic to fish. Do not discharge into lakes, streams, ponds or public water unless in accordance with an NPDES permit.

STORAGE AND DISPOSAL

1. PROHIBITIONS

Do not contaminate water, food or feed by storage or disposal. Open dumping is prohibited.

2. PESTICIDE DISPOSAL

Pesticide spray m... or rinsate that cannot be used or chemically processed should be disposed of in a landfill approved for pesticides or buried in a safe place away from water supplies.

3. CONTAINER DISPOSAL

a) Re-seal container and offer for reconditioning or recycling. b) Triple rinse (or equivalent) and offer for recycling, reconditioning or disposal in approved landfill or bury in a safe place.

4. GENERAL

Consult Federal, State and Local disposal authorities for approved alternative procedures.

DIRECTIONS FOR USE - GENERAL CLASSIFICATION

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

POWERCIDE detergent-disinfectant has been designed specifically for hospitals, offices, motels, nursing homes, schools, food processing plants and other institutions where housekeeping is of prime importance.

DISINFECTION - To disinfect hard inanimate surfaces (such as walls, floors, table tops) apply solution with mop, cloth, sponge or mechanical sprayer so as to wet all surfaces thoroughly. Allow to remain wet for 10 minutes and then let air dry.

DILUTION RATES - General Disinfection - add 4.5 ounces of POWERCIDE per gallon of water. Hospital Disinfection - add 6 ounces of POWERCIDE per gallon of water.

To Disinfect toilet bowls, flush toilet, add 4.5 ounces of POWERCIDE detergent-disinfectant directly to the bowl water. Scrub the bowl completely using a scrub brush or toilet mop, making sure to get under the rim. Let stand for 10 minutes and flush. For heavily soiled areas, a pre-cleaning step is required and recommended. Prepare a fresh solution for each use.

Manufactured By

ACCEPTED

JAN 26 1961

Under the Federal Insecticide, Fungicide, and Rodenticide Act or amended, for the pesticide registered under EPA Reg. No. 6009-B

6001 Stitt Street - P.O. Box 1218
Monroe, North Carolina 28110

MILDEWSTAT - To control mild and mildew on hard non-porous surfaces (such as floors, walls, table tops), clean surfaces then add 4.5 ounces of POWERCIDE per gallon of water. Apply with a light mop or sponge to surfaces to be treated making sure to wet thoroughly. Let air dry. Prepare a fresh solution for each use. Repeat application at weekly intervals or when mildew growth reappears.

SANITIZATION - To sanitize previously cleaned and rinsed non-porous food contact surfaces, prepare a 200ppm active quaternary POWERCIDE solution by adding 8 ounces of POWERCIDE to 5 gallons of water. To sanitize immobile items (such as tanks, chopping blocks, counter tops), flood the area with 200ppm POWERCIDE solution or apply with a cloth or sponge, making sure to wet all surfaces completely for at least 60 seconds. Let air dry. Prepare a fresh solution for each use. To sanitize mobile items (such as drinking glasses, eating utensils), immerse in a 200ppm POWERCIDE solution for at least 60 seconds making sure to immerse completely. Remove and let air dry. Prepare a fresh solution daily or more frequently as soil is apparent.

POWERCIDE is a heavy duty cleanser, disinfectant and sanitizer designed for general household use, schools, motels, offices, kitchens, food processing plants and light industrial plants and hospitals applications where heavy duty cleaning is of prime importance. When used as directed, POWERCIDE is formulated to disinfect inanimate hard surfaces (such as walls, floors, sink tops, toilet bowls, tables, chairs and telephones). For larger areas such as patient care facilities and restrooms, the product is designed to provide both heavy duty cleaning and disinfecting. POWERCIDE is designed to aid in controlling the hazard of cross contamination in areas where heavy duty cleaning is necessary. When used as directed, POWERCIDE will remove most household dirt in a single simple application. In addition, POWERCIDE deodorizes those areas which generally are hard to keep fresh smelling, such as garbage storage areas, empty garbage bins and cans, toilet bowls and any other areas which are prone to odors caused by microorganisms.

DISINFECTANT - At 4.5 ounces per gallon dilution, POWERCIDE exhibits effective disinfectant activity against the organisms salmonella choleraesuis, staphylococcus aureus, and E. Coli. At this level the product is also fungicidal against the pathogenic fungi, Trichopyton mentagrophytes. At 6 ounces per gallon dilution, POWERCIDE is an effective hospital disinfectant and demonstrates disinfectant activity against pseudomonas aeruginosa. Efficacy tests have demonstrated that POWERCIDE is an effective bactericide, and fungicide, in the presence of organic soil (5% blood serum).

MOLD AND MILDEWSTAT - POWERCIDE prevents and controls mold and mildew and the odors they cause on hard non-porous inanimate surfaces at 2 ounces per gallon dilution.

SANITIZATION - When used for sanitization of previously cleaned food equipment or food contact items limit active quaternaries to 200ppm. At this level **NO POTABLE WATER RINSE** is required. POWERCIDE is an effective sanitizer when diluted in water up to 500ppm hardness (as CaCO₃).

WARRANTY

Our recommendations for use of this product are based upon tests believed to be reliable. The use of the product being beyond the control of the manufacturer, no guarantee expressed or implied is made as to the effects of such or the results to be obtained if not used in accordance with directions or established safe practice. The buyer must assume all responsibility, including injury or damage, resulting from its misuse as such, or in combination with other materials. Statements concerning the use of this product are not to be construed as recommending the infringement of any patent and no liability for infringement arising out of such use is assumed.
