SANITIZATION

If used for sanitization of previously cleaned food equipment or other food contact items, limit the level of active quaternaries to 200 ppm (1 ounce per 5 gallons of water). No potable water rinses required. For heavily soiled or organic matter, a pre-cleaning step is recommended.

This product when used on environmental inanimate hard surfaces at 1 ounce per gallon of water is effective against influenza A, Herpes simplex, adenovirus type 5, and vaccinia viruses.

SPECTRA is a concentrated non-phosphate detergent-disinfectant, sanitizer, fungicide and deodorizer. It is specifically designed for institutional use such as hospitals, nursing homes and schools where housekeeping will be of prime importance in controlling the hazard of cross-infections from environmental surfaces.

SPECTRA is for use on floors, walls and other hard surfaces in hospitals, nursing homes, hotels, public areas, industrial areas and institutions. It is excellent for operating rooms, rest rooms, nurseries and food service areas.

When used as directed SPECTRA is effective against staphylococcus aureus, salmonella choleraesuis and pseudomonas aeruginosa. SPECTRA is also effective against pathogenic fungi, trichophyton interdigitale.

WARRANTY

Our recommendations for use of this product are based upon tests believed to be reliable. The use of this product being beyond the control of the manufacturer, no guarantee, expressed or implied, is made as to the effects of such or the results to be obtained if not used in accordance with directions or established safe practice. The buyer must assume all responsibility, including injury or damage resulting from its misuse as such, or in combination with other materials. Statements concerning the use of this product are not to be construed as recommending the infringement of any patent, and no liability for infringement arising out of such use is assumed.
