#### FLEAS

Spray liberal application to floor areas, carpets, baseboards, cracks and crevices. Also treat lower parts of furniture, animals sleeping quarters and wherever these insects may be suspected.

#### CARPET BEETLES

Thoroughly spray infested rugs and carpets, also treat all cracks in baseboards and floor. Repeat as necessary.

#### ROACHES, WATERBURGS, SILVERFISH

Spray liberally with force around refrigerators, sinks, all cabinets, around pantry shelves, into all cracks and crevices in molding and woodwork, pipe openings in walls and floors and wherever these insects might hide. Repeat as necessary.

#### IMPORTANT

For best results spray thoroughly at rate of 1 gallon per 750 sq. ft. of surface with a hand or pressure type sprayer into cracks and crevices and other places where insects may be harbored in order to contact as many as possible.

WATER-BASED SPRAYS MAY CAUSE STAINING OF CERTAIN SURFACES AND FABRICS.

### DIRECTIONS FOR USE WITH RESIDUAL INSECTICIDES

DILL PYRETHRIN EMS may be combined with most residual insecticides on the market today.

DILL PYRETHRIN EMS provides the double punch of fast knock-down and deep flushing action to residual insecticides. Use one part concentrate to 20 to 60 parts finished insecticide depending on results desired.

#### STORED FOOD AND PANTRY ITEMS

The active ingredients in a spray made by diluting one part DILL PYRETHRIN EMS with nine parts of water are effective against all common household insects in contact with the exposed portions of stages of the grocery store. These include: infested flour, beetle, mustard, flour, beetles, codling saw, fruit fly, gnats, spider, beetle, and other insects. Mediterranean flour moth, and other worm, cigarette beetle, drug store beetle, cheese skippers, etc. are not included.

Remove all packages of food and treat all other surfaces of shelves and cabinets. Also spray to any floor or table remaining packages on shelves infested with insects should be destroyed.
