J.J. Dill Company
P.O. Box 788
Kalamazoo, MI 49005

Gentlemen:

Subject: C-7 Standard Fly Spray
EPA Registration No. 6900-36
Your Submission Dated March 25, 1985

The amendment referred to above, to update general labeling including precautionary statements, statement of practical treatment, and storage and disposal statements, is acceptable.

However, in the Environmental Hazards statement delete the sentence "Keep out of lakes..." and add "Do not add directly to water."

A stamped copy of the label is enclosed for your use.

Sincerely yours,

Timothy A. Gardner
Product Manager (17)
Insecticide-Rodenticide Branch
Registration Division (TS-767)

**PRECAUTIONARY STATEMENTS
HARMFUL TO HUMAN & DOMESTIC ANIMALS**

CAUTION

Harmful if swallowed. Avoid contamination of feed and foodstuffs. The use of this product in food processing plants should be confined to time periods when the plant is not in operation. Foods should be removed or covered before treatment. All food processing surfaces should be covered during treatment or thoroughly cleaned before using. Clean out any waste grain, dust, dirt or debris and debris before spraying. Remove pets, birds and fish aquarium before spraying.

ENVIRONMENTAL HAZARD

This product is toxic to fish. Keep out of lakes, streams or ponds. Do not contaminate water by cleaning of equipment or disposal of wastes.

PHYSICAL OR CHEMICAL HAZARDS

Do not use in presence of open flame. Contact with liquid, do not use in ill, poor or store near heat or open flame.

DIRECTIONS FOR USE

If you are a violation of Federal law, use this product in violation of Federal law, you are receiving.

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal. Open dumping is prohibited. **SPILLS:** If container is damaged, stop any leaks by restraining the container or by patching or otherwise repairing the leaks. Take care to avoid contact with petroleum and wear protective gear. On a container of liquid laundry, wear protective equipment or equipment to prevent contact with the product or its vapors. Cover the spilled area with a minimum of 200 lbs of sorbent material, such as dry, dust-free sawdust, sand or sawdust. Wrap the contaminated absorbent on to a steel drum or put the sawdust into a galvanized drum. In case of water or benzene, place any leaking container into a similar drum or glass container. Do not store any part of spill near heat or open flame.

PESTICIDE DISPOSAL: Pesticide wastes are toxic. Improper disposal of excess pesticide, spray mixture, or empty container is a violation of Federal law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the nearest EPA Regional Office for guidance.

CONTAINER DISPOSAL: In the U.S.A. this container must be triple rinsed before reuse. For other countries, see label.

DIRECTIONS FOR USE

STANDARD FLY SPRAY is especially formulated for use in the Challenger, Microsol, Atomist, Klip-On and similar mist sprayers. Manufactured for use in mist sprayers, mist foggers, hand sprayers and pressure sprayers.

READY TO USE- No dilution required.

FLYING INSECTS:

For flies, mosquitoes, fruit flies, gnats, flying moths, bees, hornets and other flying insects, spray with a fine mist at the rate of 2 or 3 ozs. per 1,000 cu. ft. of space. Direct mist to all sections of area to insure contacting all insects with the mist.

For best results close area to be treated and keep closed for 10 minutes.
