SEE RIGHT PANEL FOR ADDITIONAL CAUTIONS

SATISFACTION
GUARANTEED
when used
as directed

PLEASE OBSERVE
PRECAUTIONS

Ra'dar contains food that appeals to rats and mice. The poison in Ra'dar works effectively to control rat and mouse colonies.

Ra'dar contains an anticoagulant chemical which causes internal hemorrhage. Should it be ingested by humans, pets or livestock, induce vomiting as soon as possible with a teaspoonful of salt in water. Continue treatment until vomit fluid is clear, and call physician.

NOTE TO PHYSICIANS: Treat ingestion of Ra'dar as for an overdose of dicoumarol.

Ra'dar ACTIVE INGREDIENT
WARFARIN (3-(4-acebutyl-
benzyl)-4-hydroxycoumarin
00.0250

INERT
INGREDIENTS 99.9750
