## WAREHOUSE AND MILL SPRAY

### ACTIVE INGREDIENTS

100

Piperonyl Butoxide, Technical ***	.251%
Pyrethrins	.031%
Petroleum Oil	99.718%
*** Equivalent to 0.201% of (Butylacetate, 6-propyl piperonyl ether and 150 related compounds.)	

For the control of flies, grain moths and many other common insects, Steingo Spray contains Piperonyl Butoxide and Pyrethrins. It can be used around foodstuffs and grain, but should not be applied directly to uncooked food or grain. Steingo Spray kills on contact flies, mosquitoes, gnats, sand flies, silverfish, beetles, spiders, wasps, hornets, grain moths and ants.

Adjust sprayer to deliver a fine mist, treat all areas where insects are commonly found. Direct spray into moldings, under sinks, pipes, cracks, crevices and similar hiding places. Treat crevices of infested areas thoroughly and repeat applications as needed.

**CAUTION**  
**KEEP OUT OF THE REACH**
