Phenol Coef.: (A.O.A.C. Method):

Salmonella typhosa . . . 13

PINE ODOR DISINFECTANT is a very powerful disinfectant which exhibits activity against a wide spectrum of bacteria which may endanger health. Properly diluted to usage strength, PINE ODOR DISINFECTANT is generally non-irritating to normal skin. This concentrate must be diluted as directed below.

**DIRECTIONS:** For cleaning and disinfecting of rest rooms, floors, toilet fixtures, walls, etc. use 2 to 3 ounces of PINE ODOR DISINFECTANT to each gallon of warm water. Heavily contaminated surfaces or excessive dirty surfaces may require as much as 6 ounces of the disinfectant to each gallon of water. Restaurant equipment will normally require from 4 to 6 ounces of disinfectant to each gallon of hot water. Rinse equipment and tables well. (Do not use on eating or cooking utensils.)

**CLEANS AS IT DISINFECTS AS IT DEODORIZES WHEN USED AS DIRECTED**

**ACTIVE INGREDIENTS:** . . . . . 33.22%

Steam distilled Pine Oil, coconut oil soap, Sodium  
O-benzyl P-chlorophenate, Isopropyl alcohol.

**INERT INGREDIENTS:** . . . . . 66.78%

Water, sodium hydroxide

**CAUTION:** This is a concentrated disinfectant. It must be diluted according to above instructions before using. Do not take internally. Avoid food contamination. Do not allow contact with skin, eyes or clothing. If contact occurs, wash with plenty of soap and water. Keep out of reach of children.
