### CAUTIONS

This product is toxic to fish.  
 This product is toxic to birds.  
 Do not contaminate water by cleaning of equipment, or disposal of wastes.  
 Apply this product only as specified on this label.  
 Foods should be removed or covered during treatment. All food processing surfaces should be covered during treatment or thoroughly cleaned before using. When using the product in these areas, apply only when the facility is not in operation.

**SPRAY-TOX** contains Pyrenone\* and a high grade petroleum base.

**SPRAY-TOX** is pleasant and effective to use.

**SPRAY-TOX** will not stain clothing, drapes, upholstered furniture, etc., properly used.

**SPRAY-TOX** should be atomized at a distance of 4 or 5 feet from fabrics. Do not wet the fabric or surfaces with liquid.

**SPRAY-TOX** promotes sanitation through its control of insects.

**SPRAY-TOX** is very toxic to many kinds of insects, and tests well above the minimum requirements for AA Fly Spray.

**SPRAY-TOX** is especially manufactured for use in modern steam Vaporizing and Fog type sprayers. Small potent particles fill the air giving quick knockdown and high kill; can be used in any type sprayer.

**SPRAY-TOX** is especially effective and suitable for industrial use in flour mills, candy plants, meat packing plants, bakeries, restaurants, dairies and dairy plants, hotels and other places where food is handled, for control of the exposed stages of flour beetle, cadelles, saw tooth grain beetle, confused flour beetle, Mediterranean flour moth, mites, skippers, chocolate moth, cigarette beetle, and Angoumois grain moth.

**SPRAY-TOX** leaves no unpleasant odor.

## CAUTION: Harmful If Swallowed.

### KEEP OUT OF REACH OF CHILDREN

Fire Hazard: Do not use, spill, pour, or store near heat or open flame.  
 Do not reuse empty drum. Return to drum reconditioner or destroy by perforating or crushing and burying in a safe place.

#### ACTIVE INGREDIENTS 100%

Pyrethrins	0.373%
Piperonyl butoxide technical	1.870%
Petroleum distillate	97.757%
Butylcarbityl (6-propylpiperonyl) ether 1.496%	Related compounds 0.374%
	100.000%

### DIRECTIONS

**FLIES**—For house flies, stable flies and blow flies, close room and fill the air with a mist, leaving it to penetrate hiding places for at least 10 minutes. Use 2 ozs. per 1,000 cubic feet.

**ROACHES, SILVERFISH**—Cover foods and containers and spray infested areas thoroughly, directing the sprays against the insects and into such hiding places as cracks, crevices and cabinets. Repeat the application in 15 days to kill young roaches that hatch from eggs, or use as needed.

**GRAIN INSECTS**—For control of accessible stages of flour beetles, cadelles, saw tooth grain beetles, bran bugs, Mediterranean flour moths, chocolate moths, Angoumois grain moths, cigarette beetles and ham and cheese mites, thoroughly clean the food processing plants, cover receptacles and foods, and follow with a thorough application of **SPRAY-TOX** against the exposed stages of these insects, as well as into their hiding places. Use 3 oz. per 1,000 cubic feet. The intervals between treatments will depend upon the thoroughness of these procedures. Repeat the application when it is needed.

**FLYING MOTHS AND AID IN MOTH CONTROL**—Spray rooms, closets, other open areas where clothes are kept. Fill room with heavy mist or fog. Spray closets with heavy mist or fog. Spray closets thoroughly directly on clothing, with care not to wet clothing. Give special attention to lapels, open cuffs, seams, etc., where moths are likely to be found. After thorough spraying, keep rooms, closets, etc., closed for 30 minutes. Repeat at least once every 30 days. For storing treated clothes in sealed containers, mothproof bags, trunks, etc., spray containers thoroughly without wetting. Seal.

**MOSQUITOS**—Spray upwards into the air, filling premises with a mist. Keep all openings closed at least 10 minutes. Use 0.5 fluid oz. per 1,000 cubic feet. Sweep up and remove dead insects.

**BEDBUGS**—Spray entire room thoroughly creating heavy fog or mist. Spray mattresses with particular emphasis on tufts and seams. Spray all parts of bedstead, cracks and crevices in and around baseboards, loose wallpaper, wherever bedbugs are likely to hide. Use 1 oz. per 1,000 cubic feet. Allow mattress to dry before using. Repeat as required.

**CARPET BEETLE**—Spray rug thoroughly underside as well as top side. Do not wet. Spray around baseboards and floors. Repeat as required.

**WHEN USING IN ENCLOSED AREA**—Do not remain in treated areas. Ventilate the area after treatment is completed.
