Note: Changes in labeling differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby registered/reregistered under the Federal Insecticide, Fungicide and Rodenticide Act.

Registration is in no way to be construed as an endorsement or recommendation of this product by the Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is conditionally registered in accordance with FIFRA sec. 3(c)(7)(A) provided that you:

1. Submit and/or cite all data required for registration/reregistration of your product under FIFRA sec. 3(c)(5) when the Agency requires all registrants of similar products to submit such data; and submit acceptable responses required for reregistration of your product under FIFRA section 4.
2. Make the following label changes:
  - a. Revise the EPA Registration Number to read, "EPA Reg. No. 6959-81".
  - b. Change the statement, "Do not contaminate water by cleaning or disposal of equipment." to read "Do not contaminate water when disposing of equipment washwater.".

Signature of Approving Official:

Date  
Oct. 18, 1993

3. Submit one (1) copy of the revised final printed label for the record.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA sec. 6(e). Your release for shipment of the product constitutes acceptance of these conditions.

A stamped copy of the label is enclosed for your records.

Sincerely,

Adam Heyward  
Acting Product Manager 10  
Insecticide & Rodenticide Branch  
Registration Division (7505C)

18 OCT 1993

Under the Federal Insecticide,  
Fungicide, and Rodenticide Act  
as amended, for the pesticide  
registered under EPA Reg. No.

6959-81

**KILLS  
IN  
MINUTES**

**PRECAUTIONARY STATEMENTS  
HAZARDS TO HUMANS  
& DOMESTIC ANIMALS  
CAUTION**

Harmful if swallowed. Avoid breathing vapors or spray mist. Avoid contact with skin, eyes or clothing. In case of contact immediately flush eyes or skin with plenty of water. Get medical attention if irritation persists. Avoid contamination of food and food-stuff.

**STATEMENT OF PRACTICAL  
TREATMENTS**

**Swallowed:** Call a physician or Poison Control Center. Do not induce vomiting because of aspiration pneumonia hazard.

**If Inhaled:** Remove victim to fresh air. Apply artificial respiration if indicated.

**If in Eyes:** Flush with plenty of water. If irritation persists get medical attention.

**If on Skin or Clothing:** Remove contaminated clothing; wash skin with soap and warm water. Get medical attention if irritation persists.

**PHYSICAL OR CHEMICAL HAZARDS**  
Contents under pressure. Do not use or store near heat or open flame. Do not puncture or incinerate container. Exposure to temperatures above 130°F may cause bursting.

**STORAGE AND DISPOSAL**

**Storage:** Do not store near heat or open flame.  
**Disposal:** On non-refillable hand held aerosols, not reuse empty container. Replace cap, wrap container and discard in trash collection.

The 50 lb. cylinder is refillable and should be returned to manufacturer when empty.

**Important note:** Buyer assumes all risks of use, storage, or handling of this product not in strict accordance with directions given herewith.

**ENVIRONMENTAL HAZARDS**

This product is toxic to fish. Do not apply directly to water. Do not apply where run-off is likely to occur. Do not contaminate water by cleaning or disposal of equipment.

MANUFACTURED BY:

**CESSCO, INC.**

JOHNS ISLAND, SC 29455

1-800-476-3666

**DIRECTIONS FOR USE**

It is a violation of federal law to use this product in a manner inconsistent with its labeling.

**WEAR GOGGLES OR SAFETY GLASSES AND WATERPROOF GLOVES WHEN ATTACHING PROBE AND USING THIS PRODUCT. FOR OUTDOOR USE ONLY.**

CESSCO'S ACCUDOSE Fire Ant Control System may be used in the control of fire ants in playgrounds, parks, woodlots, golf courses and building lots, lawns, exterior plantscapes, pasture or rangeland, and non-crop areas.

Start spraying prior to inserting probe into mound and continue spraying for the entire mound treatment. Push probe into the mound, treating continuously, until resistance to further insertion is felt (contact with firm dirt), indicating that the probe has reached the bottom of the nest.

Seen from above, fire ant mounds are roughly circular. Visually divide the mounds into 4 quadrants and the mound center. (fig.1)

Fig. 1

Fig. 2 & 3

Probe insertions & treatment should be made in the center of each quadrant and final probe in the center of the mound at sites marked with "X" on figure 1.

Holding probe about 1 inch above mound, begin dispensing Cessco Fire Ant Formula and immediately insert probe slowly into mound (fig. 2 & 3).

Only one injection site is necessary on a mound 6 inches diameter or less. The injection in a 6 inches or smaller mound should be for 5 seconds. Larger mounds should be treated in several injections on the basis of size - 10 seconds total for mounds 6 - 12 inches diameter, 15 seconds total for mounds 12 - 18 inches diameter, and 20 seconds minimum for mounds greater than 18 inches diameter. On large mounds, treatments may be extended by 1 to 2 additional seconds, in order to insure that aerosol formulation reaches all cavities within the mound or colony. Reexamine the mound after 7 days and re-treat if any activity is apparent. Look for new mounds in the immediate vicinity and treat these as well in order to prevent inefficiency from mound migration.
